endogenously produced cannabimimetic compound
A natural Analgesic and Anti-inflammatory

**Most Innovative Formulations to meet
Special Medical Purposes (Registered under FSMP)**

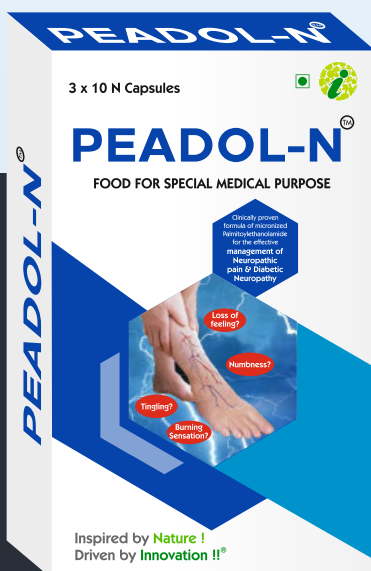

**INTRODUCING
1ST TIME IN INDIA**

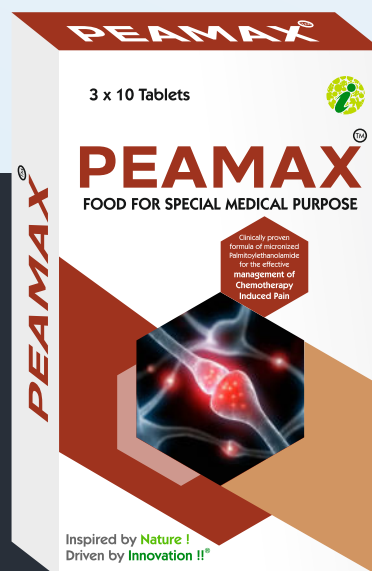

**For the effective
control of pain and
maintenance of blood
sugar level in painful
Diabetic Neuropathy**

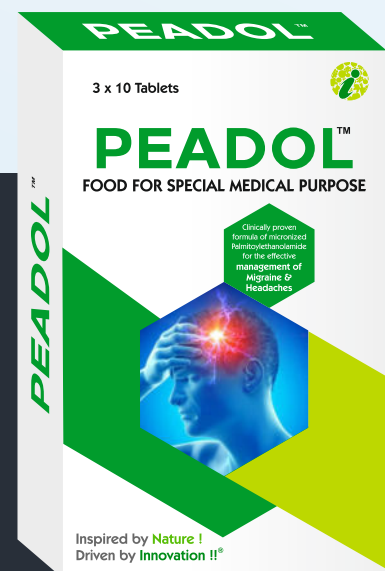

**In neuropathy &
neuralgia**

**In cancer pain/
chemotherapy
induced pain**

**In headache
and migraine**

**INTRODUCING
FOR THE
1ST TIME,**

Innovative and scientifically
supported combination

PEAPRO

Combination Therapy: Synergistic Effects of PEA, cGP Pro and Alpha Lipoic Acid

Combining PEA, cyclic glycine proline complex, and alpha lipoic acid may provide synergistic effects for the treatment of diabetic neuropathy. The combined approach addresses multiple pathways involved in the development and progression of neuropathy.

Palmitoylethanolamide (PEA)

Anti-inflammatory, analgesic

Cyclic glycine proline(cGP pro*)

Neuroprotective, nerve regeneration

Alpha lipoic acid (ALA)

Antioxidant, anti-inflammatory

cGP Pro* is a novel therapeutic agent designed to enhance microcirculation. It works via IGF-1 activity, by improving **blood flow** and reducing oxidative stress, which are critical factors in managing diabetic neuropathy.

REVOLUTIONIZING THE TREATMENT OF PAINFUL DIABETIC NEUROPATHY WITH...

Each capsule contains

PEA (Palmitoylethanolamide)	300mg
Cyclic Glycine Proline (cGP Pro*)	100mg
Alpha lipoic acid	100mg

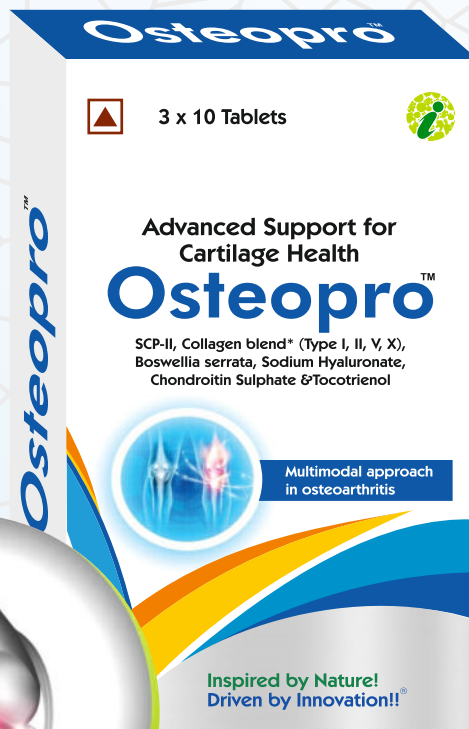

SCP-II

(SALMON COLLAGEN PROTEOGLYCAN):

Exclusive Launch in INDIA by ISHAANAV

THE NEW GENERATION OF JOINT AND SKIN HEALTH SUPPLEMENTATION

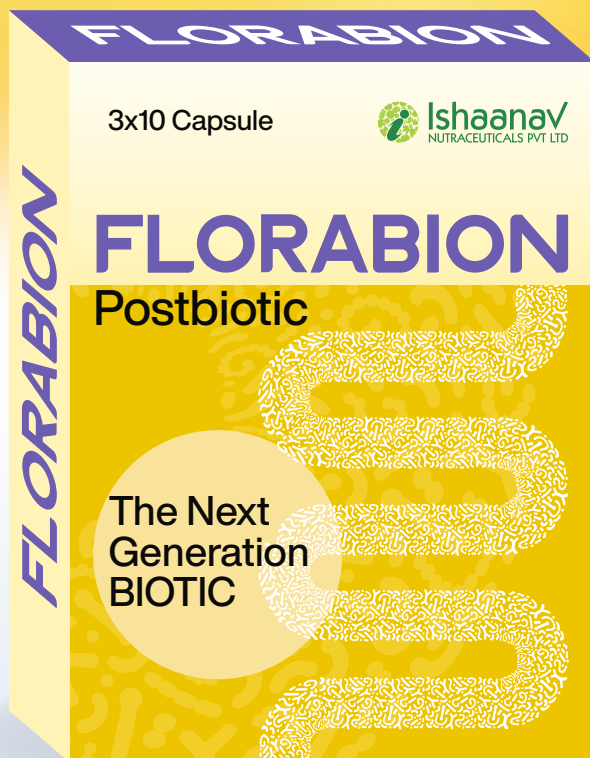

- ▶ SCP-II®, only ingredient containing both **undenatured Type II Collagen** and **undenatured Proteoglycan**
