DIRECT DRIVE LOCKSTITCH SEWING MACHINE WITH SINGLE TRIMMER FUNCTION

- Direct drive with single trimming function.
- Easy operation with panel button.
- Suitable for sewing medium materials.
- New design of hand wheel to cool down the motor temperature, increasing the life span of electronic parts and preventing thread winding.
- Integrated head isolates machine cavity from dust and spider web, keeping it clean and neat.

TOP DIFFERENTIAL MOTION FEEDING LOCKSTITCH SEWING MACHINE

- Pleating patterns are adjusted by digital control panel.
- Top differential motion feeding works for all kinds of composite fabrics.
- Delicate stitch path with stable sewing quality.
- It saves labor intensity and promotes efficiency by one-step pleating procedure.
- It is widely used for processes of pleating, cuff-attaching, placket thread embedding, binding, seaming and bottom hemming etc.
