About Us

Jaguar Surface Coating Equipments (JSCE) A Leading Painting And Dispensing Equipment Manufacturer

Since its inception in the year 1998, **JSCE** has not looked back and sailed over in the **spray painting equipment industry**. A trustworthy name and largest **manufacturer** in India and the Asia continent. We are known for our quality products and prompt after sales services – thanks to our established supply chain network spread over the country. We have emerged over the years as a complete solution provider for our business associations.

Headquarters' at Pune, India is a leading manufacturer of Airless Spray Painting Equipment's, Dispensing solutions for grease, sealants and adhesives, Fluid handling systems for oil and chemicals, automation for painting of pipe, barrel and painting of heavy fabrication structures. We are a preferred solution partner for any paint spraying needs with compatibility towards all types of paint materials like Epoxy, PU, Zinc base, Lacquers, primers, varnishes, Emulsions and many more.

We are a team of around 70 people and have 9 dealers in more than 6 states. Our strength lies within our design capabilities, engineering excellence and state of art in house manufacturing facilities. The plant area of 1,00,000 sqm at Ahmednagar district, around 25,000 sqm Head office and strategic supply unit at Pune mark's our path to operational, deliverable and preferred partner for our esteemed customer's.

With the dawn of Industry 4.0 revolution, we have escalated to the top notch of technology and its implementation in every walk of our processes. We have established a reliable vendor base for standard bought out's – ability to deliver in volumes as per orders.

We are equipped with latest German make CNC, VMC center's, foundry plant, testing center, research and development unit.

Our Mission :

- To provide superior quality spray painting equipments and fluid dispensing systems which are long lasting with ease of handling in any working environment.
- To deliver excellence in industrial automated spray painting and dispensing solutions with commitment towards customer operational safety, effectiveness and value for money.

Our Vision :

“Creating Colorful & Durable Surfaces By Spraying Paints.”

CNC Shop

Ahmednagar Plant

Painting Equipments :

- Residential :** ● Electrical Paint Sprayer ● Putty Sprayer Pneumatic ● Airless - Air Assisted Spray
Industrial : ● Medium Duty ● Heavy Duty Airless Spray ● Air Assisted Spray ● Airmix Finish Spray

Dispensing Systems :

- Drum Pumps 20 ltr to 200 ltr ● Heated Drum Press ● Dosing / Metering Valves
● Material Pressure Regulator

Material Transfer Systems :

- Pressure Feed Container ● Barrel Mounted Pump ● Paint Transfer Pump ● Paint Agitator / Stirrer
● Paint Circulation Pump ● Diaphragm Pump ● Epoxy Grouting Machine

Automation Systems :

- Barrel Painting Automation System ● Plural component painting/metering machine
● Internal/ External Pipe Coating Automation

Product Portfolio

The painting industry has been going through a drastic changes with technology to manufacture quick drying paints which has imposed a challenge for the equipment's to spray the paint with ease.

JSCE is able to the challenge and over a period has designed unique products as per the application need from low to highly viscous materials.

Our products cater towards the need for material storage and transfer to the final spraying.

A wide range of offering from low, medium and heavy duty sprayers to highly viscous media. The products are engineered and tested over time for hassle free operation with utmost safety.

Electrical Airless Paint Sprayer

Putty Sprayer Pneumatic

Airless Air Assisted Spray Pump

Airless Spray Pump/Air Assisted/Airmix Finish

• Medium Duty

• Heavy Duty

Drum Pump
