

CENODA® SMART POWER ADAPTER

VERIFIED QUALITY

Model: T-2142 | 2.4A Ultra-Fast Single USB Wall Charger

Product Specifications & Features

The **CENODA T-2142 2.4A Fast Wall Charger** is engineered for high efficiency, universal compatibility, and intelligent device protection against over-voltage and thermal spikes.

Input Power	AC 100–240V ~ 50/60Hz (Universal Worldwide Input)
Output Rating	DC 5.0V = 2.4AMP Max Rapid Charge
Interface	1 x Standard USB-A High-Speed Port
Smart Circuitry	Intelligent IC Chip with Overheating & Short-Circuit Defense
Plug & Build	Durable Solid Copper Round Pins, High-Gloss Flame Retardant PC Body

ANGLE HIGHLIGHTS & IN-DEPTH DETAILS

1. Precision 2.4A USB Port

High-precision molded USB-A socket with gold-plated internal pins for minimum resistance and long-lasting connection integrity.

2. Retail Combo & Packaging

Full packaging suite with model specs, certification badges (CE/FC), and bundled heavy-duty USB charging cable.

3. Power Extension Strip Fit

Compact ergonomic footprint easily plugs into multi-plug power strips without obstructing neighboring sockets.

4. Wall Socket Integration

Features precision-spaced round pins engineered for firm wall grip and seamless 220V/110V AC electrical contact.

COMPLETE 6-PERSPECTIVE STUDIO RENDERS SHEET

Multi-Perspective Render Sheet: Exploded internal architecture view (IC chip, internal safety components, and pure copper prongs), macro connector closeup, complete retail box view, and live charging demonstration.
