About Us

Contamination Control is One of the Most Vital Aspects of Health and Safety at Places Where Sterility is the Most Important Prerequisite. Sunny Enterprises is an Eminent Manufacturer and Supplier of Contamination Control Products Such as Cleanroom Garments, Antistatic Garments, Antimicrobial Garments, Aseptic Area Garments, Critical Area Garments, Sterile Area Garments, Disposable Caps, Disposable Nose Masks, Disposable Shoe Covers, Autoclavable Goggles, Autoclavable Shoes, Autoclavable Clogs, Mops, Dusters, Etc. Used in Hospitals, Laboratories, Pharmaceutical Companies, Space Agencies, Component Assembly Areas, Operation Theaters, Nurseries, and So on. The Company Was Established in the Year 1996 With a Mission to Help Control Contamination Where It is Needed the Most Through Quality Products.

Designed for maximum control of particulate and microbial contamination, the coverage is ideal for critical applications. They are designed to achieve maximum contamination control without sacrificing wearer comfort. Coveralls feature full-cut, unisex styling, zipper, and raglan sleeves. Stainless steel press buttons or elastic is provided at the base of collar, wrists and ankles. Our products are used throughout for their superior strength and durability. Available in a range of high performance fabrics in sizes XS-XXXXL. and combined with appropriate head and shoe coverings, the coverall provides maximum body coverage.

Known for offering high quality products, we are one of the few names in this industry, which undertakes constant research and development so as to offer customized solutions to the industries we serve, depending on client specifications and requirements. Our products are designed for effectively controlling the growth and proliferation of any kind of contamination.
