About Us

Maintaining a portfolio containing diverse products is difficult. But taking this challenging task is no other company but Asian Engineering, to delight and satisfy more and more customers in Indian and Foreign markets. We have recently started working as a manufacturer, wholesaler and exporter of Double Cavity Aluminum Foil Container Making Machine, Aluminium foil container Making Machine, Aluminium Foil Container Lead Making Machine, Aluminium Foil Container Making Machine, Three Cavity Aluminium Foil Container Making Machine, Aluminium Foil Container Machine and others. Our creations are of supreme built which is why they are admired by customers. Our array containing different types of machines, dies and rolls is priced very reasonably for buyers to make easy investment. Precision developed and longer serving, our products have been earning us wide acclamation in different regions of the world. To gain competitive edge in the industry, we are bringing forth our products in different specifications.

We are extremely happy and satisfied to have developed two production units at Rajkot (Gujarat, India). Both our units are fitted with modern technology machines, which help in the production of premium class machines, dies and more products. Strictness pertaining to maintaining supreme quality standards is ensured at both the units so that more and more clients get nothing but value for money industrial products. At these units, we have special quality controlling and packaging departments to ensure the best standards in our offerings are maintained well.
