About Us

Colourplus Polyurethanes Pvt. Ltd. aims to provide superior-performing flooring and coating solutions for industrial, commercial, and institutional applications. We are a manufacturer, supplier, and service provider with a focus on seamless epoxy and polyurethane flooring systems that provide high-level protection against physical wear, chemical exposure, and environmental degradation. We have experience in waterproofing basements, terraces, and subterranean structures with long-term durability and stability.

We value the challenges of heavy pedestrian footfalls, relocation of machinery, and chemical spillage in industries. Our epoxy floor coating solutions, anti-skid floor coatings, and PU floor finishes are designed to withstand tough conditions while enhancing safety and aesthetics. With cutting-edge formulations, we provide customized solutions according to the specific needs of manufacturing units, pharma units, automotive units, and food processing units. Our expert waterproofing solutions ensure complete protection from water ingress, preventing structural deterioration and extending the life of buildings. From basement waterproofing and terrace waterproofing to underground waterproofing, we employ proprietary application techniques that leave behind smooth finishes and long-lasting solutions.
