About Us

We, Eternitive Heat Transfer Solutions India Pvt. Ltd., are proudly registered in India under the Start-up India, Stand-up India, and Make in India initiatives, focusing on the manufacturing of innovative and advanced heat exchangers and heat exchanger-based systems. We are known for offering products like Air Fin Air Finned Finned Tube Heat Exchangers, Shell And Tube Heat Exchangers Heat Condensers, Spiral Heat Exchangers, etc. Our products are designed to deliver high efficiency, reliability, and performance across a wide range of industrial applications. Our heat exchangers play a vital role in industries such as chemical processing, steel manufacturing, fertilizers, petrochemicals, pharmaceuticals, agrochemicals, power generation, cement production, evaporation systems, effluent treatment, and various general engineering sectors.

At EHTS, we are committed to delivering innovative and customized solutions tailored to the evolving needs of the processing industry. Our product portfolio includes pre-heaters, chillers, pasteurizers, dump condensers, block and tube heat exchangers, spiral heat exchangers, and other specialized process equipment. With a strong focus on quality, technological advancement, and customer satisfaction, we strive to enhance operational efficiency and sustainability for our clients while maintaining the highest industry standards.
