

Aerol 3060 Zinc Spray - Product Details

Field	Value
Product Name	Aerol 3060 Zinc Spray
Chemical Name	Zinc Rich Anti-Corrosion Coating Spray
Usage	Industrial, Metal Surface Protection, Corrosion Protection, Maintenance
Appearance	Silver Grey Spray
Form	Aerosol Spray
Brand Name	Aerol
Color	Silver Grey
Function	Protects metal surfaces against corrosion and rust
Suitable For	Steel Structures, Pipelines, Weld Joints, Industrial Equipment, Automotive Parts, Marine
Ingredients	High Purity Zinc, Resin, Solvents, Propellant
Zinc Content	More than 97% (Dry Film)
Drying Time	Touch Dry in Less than 20 Minutes
Finish	Matte Metallic Grey
Shelf Life	24 Months
Packaging Type	Aerosol Can
Can Size	400 ml
Application Method	Spray
Features	Fast Drying, Excellent Corrosion Protection, Weather Resistant, High Zinc Content
FOB Port	Ex-Works / As Applicable

Product Description

Aerol 3060 Zinc Spray is a zinc-rich cold galvanizing aerosol that provides long-lasting corrosion protection for ferrous metal surfaces. It contains more than 97% pure zinc in the dry film, dries to touch in less than 20 minutes, and offers excellent weather and rust resistance. Suitable for steel structures, pipelines, weld joints, industrial machinery, automotive and marine applications.
