

SERVOLTS

PRIVATE LIMITED

Servolts is the best leading manufacturers, suppliers, Traders, OEM, and Exporters of a wide range of Servo Voltage Stabilizers, Servo Controllers, Linear Type Servo Stabilizers, Variac Type Servo Stabilizer, Dimmer type stabilizers, Rolling contact type(balance/unbalance) Servo Stabilizer, AC Stabilizer, Relay type Stabilizer, Automatic Servo Stabilizer, Mainline Stabilizers, Power and Distribution Transformers/Power Transformers, Oil Cooled Servo Stabilizers, Air-Cooled Servo Stabilizers, Control Panel, HT AVR and Online UPS in DELHI, India. It has thousands of installations across India. Being an ISO, RoHS certified, and CE approved company, our products are ISO 9001: 2015 QMS and ISO 14001: 2015 EMS standards. Today with more than two decades of experience in power products. Servolts engineer took the initiative to make the best servo voltage stabilizer, Distribution Transformers, and Online UPS to serve the customer with the products with the best features and experience. Our products design to guard your equipment's against any failure due to high and low voltage problems and keep you tension-free about maintenance of your voltage-sensitive equipment from power issues such as power failures, power sag, power surge, under voltage or over voltage, frequency variation, harmonic distortion, and line faults.

Why Servolts Products are best for you?

Servolts team is a group of highly qualified professionals with two decades of experience in the Stabilizers/Transformers industry. They come from a thoroughly electrical background with good exposure in manufacturing, Finance, and technical Know-how. We properly listen and understand customer scenarios and suggest the best sustainable solution. Servolts also has an excellent pan India network offering 24*7/365 days On-line/time/site supports. Managing customer calls/queries after applications services and achieving the highest customer satisfaction. We are ensuring peace of mind for our customers. The manpower engaged in manufacturing/Sales and services such Stabilizers/Transformers are well trained and experienced and boast of certified skill sets.

Servolts products are highly genuine, robust, and more life products. We use the best certified raw material. The Organization is ISO, RoHS & CE certified. We are government suppliers. Each unit is going through testing before dispatch. We used A grade power transformer oil & the Filling of Oil done at the site in front of the Customer. No Load Losses are minimum in the product. We have the most punctual staff in after-sales and services of the products. We offer prompt after-sales and services.

Salient Features

- High Correction Speed
- Inbuilt Time Delay Relay
- Less than 1% No - Load Losses
- Digital Control Card
- Microprocessor - Based Control Card
- Suitable for Unbalanced Supply & Load

Add on Features as Per Customer Demands

- High and low Voltage cut - off switch LNT Contractor.
- By - pass change over switch to by - pass on direct power mode and servo mode.
- Single - phase preventer switch VSP2 switch
- MCCB for overload and short circuit protection

Our Product

- Dimmer type servo voltage stabilizer
- Linear type servo voltage stabilizer
- Oil cooled servo voltage stabilizer
- Air cooled servo voltage stabilizer
- All types UPS
- HT AVR
- Power Transformer
- Distribution Transformer
- Automatic Mainline Voltage Stabilizer
- AC Stabilizer
- Isolation Transformer

Improved Features :

- Wide selection for input voltage range(100V- 360V)
- Highly efficient product which saves electricity
- Better power factor correction which reduces MDI (Maximum Demand Index)
- Latest digital double display microprocessor - based control card for input - output voltage
- Maximum life with negligible or no maintenance cost
- High quality of raw material

Quality Assurance :

Quality gives satisfaction & we believe in Quality Products. Quality has been a serious concern & a prime reason for our success in arena field with competition.

To make sure superior quality products we have our facilities equipped with a spared off testing facilities.

We feature out several quality control tests & inspections during the varying stages of production & before the dispatch of products to make sure our products suit international products.
