About Us

Qbits Energy (India) Private Limited is India's next-generation solar inverter brand, built on the Heaven Group legacy of engineering precision, dependable performance, and continuous innovation. Designed for stable operation beyond 20 years, Qbits inverters integrate German-grade electronic components, advanced thermal management, and AI-driven monitoring to deliver safety, efficiency, and lasting value. We are among top manufacturers and supplier of Hybrid Solar Inverter and Grid Solar Inverter. Each Qbits inverter passes through 1,000+ automated quality checks and incorporates high-performance IGBTs and long-life capacitors engineered for dependable operation. Its rugged IP66 enclosure provides enhanced protection against demanding Indian rooftop environments. With AI-powered WhatsApp notifications, complete monitoring data security through Indian servers, and a 12-year full replacement warranty, Qbits delivers intelligent technology, durability, and confidence with every solar installation.

Based in Surat, Gujarat, India, Qbits Energy is a forward-thinking solar inverter company focused on delivering smart, efficient, and reliable energy solutions for modern power needs. Our product range includes On-Grid Solar Inverter and Hybrid Solar Inverter, designed for residential, commercial, and industrial applications. Our on-grid inverters support efficient solar power conversion and grid connectivity, while hybrid inverters provide battery-ready solutions for greater energy flexibility. With advanced technology, intelligent monitoring, robust protection, and engineering suited to Indian conditions, Qbits Energy aims to make solar power more efficient, manageable, and dependable.
