ABOUT US

Hawk Glass is an Indian Glass Processing company, inspired from the **Make In India** Program launched in 2014 by Prime Minister Sh. Narendra Modi. Our company manufactures wide range of innovative privacy solutions catering to both commercial and residential clients, emphasizing on service and quality.

We are India's leading suppliers of toughened glass building products. And provide a wide range of smart glass products such as: Tempered Glass, High strength Glass, Heat-Soaked Glass, Self-Cleaning Glass and Decorative glasses.

Our Strategic Location helps us to deliver the consignments faster.

- Our proximity to These locations help us in delivering the local orders faster than our peers..
- Moreover, being near to Nhava Sheva Port makes it easier for us to process export orders for our overseas clients.

**ONLY Toughened Glass
Company in PCMC**

INFRASTRUCTURE

Hawk Glass is well equipped with the latest technologies and best-in-class machines. It comprises all necessary tools and testing equipment along with advanced machinery resulting in flawless and defect-free products. Our huge warehouse hosts an overhead crane facility to store & handle large quantities of raw glass to enable the ready availability of stocks for processing.

Only Toughened glass unit in Pune to have Land Glass Furnace. Our Furnace is capable of processing all types of glass including the most sophisticated coated glass.

- Minimum Size: 150mm x 350mm
- Maximum Size: 2440mm x 4200mm
- Thickness: 4mm to 19mm

Glass washing machine from Junya:
The machine has three pairs of brushes, which can be used for washing LOW-E glass, ordinary coated and solar glass.

Straight-line edge polishing machine from ZXM:
Used for grinding and polishing straight edges or 45° angles on flat glass of different sizes and thickness.

HAWKGLASS

Automatic Glass cutting line, capable of cutting glass in any shape with high speed & precision from STRON.

Drilling machine from ZXM:
Laser positioning with high precision
Pneumatically fix glass and drill hole with the upper and lower double drill-bits.
High Efficiency and easy operation.

Since we use top-notch quality machines our toughened glass has reduced and minimal defects like:

- Rollers Marks
- Distortion
- Suction Marks on Glass
- Bubbles
- Scratches
- Bending
