

# Minimac Low Vacuum Dehydration System

Manufacturer, Supplier and Service Provider

FRF Conditioning Systems, Air Pre Cleaner Centrifuge, Centralised Oil Lubrication Systems, Double Stage Transformer Oil Filter Machine, EH Oil Filtration System, Electrostatic Oil Cleaning Machine, Electrostatic Oil Filtration System, Engine Oil Purifiers, FRF Or EH Oil Filtration Systems, Flushing Oil System, Gear Oil Filtration Systems, Hot Oil Flushing Machine, Hot Oil Flushing Systems, Hydraulic Oil Cleaning System, Hydraulic Oil Online Filters, etc.

**GEAR OIL FILTRATION MACHINE**

**THERMIC OIL FILTRATION SYSTEMS**

**TURBINE EHC FILTRATION SYSTEM**

## About Us

Established in 2012, Minimac Systems Pvt Ltd. leads the way in offering advanced Lubrication Reliability Solutions worldwide. With an expansive presence across Asia, the Middle East, Caspian regions, North Africa, Southeast Asia, and Australia, we are committed to pushing the boundaries of innovation and operational excellence. We specialize in a wide range of services, including Oil Purification, Filtration, Flushing Systems, OEM filter replacements, and precision Oil Testing. By embedding Clean Tech and ESG (Environmental, Social, and Governance) principles into our solutions, we leverage the power of IoT and AI to make data-driven, intelligent maintenance decisions. At Minimac, we aim to redefine industry standards, integrating cutting-edge technology with our vast industry expertise.

Quality, we believe at Minimac Systems Pvt. Ltd., forms the backbone of all our work. We ensure that all our products have an excellent performance and reliability as per the market standards. Our Hydraulic Oil Filtration Machines, Turbine Oil Flushing Systems, and other filtration system products undergo quality tests on the production lines. We use the latest technologies combined with the strict manufacturing process to ensure that our products give you the best filtration available, minimize downtime of the equipment, and ensure that they run at their best levels.

## Key Facts

<b>Nature of Business</b>	Manufacturer
<b>Primary Competitive Advantages</b>	oil purification system,water purification machine,Hydraulic Oil Flushing,hydraulic oil filters,oil flushing unit,flushing oil,filtration plant,mobile filtration system,hydraulic oil filtration system,filtration equipment
<b>No of Staff</b>	50
<b>Year of Establishment</b>	2007
<b>OEM Service Provided</b>	No
<b>Memberships</b>	Indian Industry(CII), Indian Pulp & Paper Technical Association IPPTA
<b>ProductRange</b>	oil purification system,water purification machine,Hydraulic Oil Flushing,hydraulic oil filters,oil flushing unit,flushing oil,filtration plant,mobile filtration system,hydraulic oil filtration system,filtration equipment

## Our Products

**Transformer Oil Testing Kit**

**Turbine Oil Flushing System**

**Laser Particle Counters**

**Offline Laser Particle Counter**

**Transformer Oil Cleaning System**

**On Site Oil Filtration Services**

**On Site Oil Testing Services**

**FRF Conditioning Systems**

**1000 LPM Oil Flushing System**

**Electrostatic Liquid Cleaning Machine**

**Automatic Online Oil Cleaning Systems**

**Moisture Meter**

**Turbine Oil Filtration Machine**

**Visgage Oil Test Kits**

**Karl Fischer Moisture Measurement Kit**

**Hydraulic Oil Filtration Machine**
