About Us

Pre-engineered building structures, also known as PEB structures, are modern-day construction solutions that offer cost-effective and efficient solutions for a wide range of industrial, commercial, and residential projects. These structures are pre-fabricated and manufactured off-site, then transported and assembled at the construction site. Considering their importance and ever-increasing demand, we, Utkarasha Enterprises, stepped into the market with a wide variety of PEB Factory Buildings, PEB Godown Sheds, Pre-Engineered Structures, Pre-Fabricated Structures, and more. We are established as a manufacturer and supplier. All the aforementioned products are designed and engineered using state-of-the-art technology and advanced manufacturing techniques at our production unit, ensuring consistent quality and precision.

All the PEB structures are customizable and can be tailored to meet the specific needs of customers. Our team of diligent professionals sits with the customers and understands their specific requirements. Accordingly, design and develop the products, providing complete satisfaction to the customers. For us, 100% customer satisfaction acts as our biggest growth driver. Since the beginning, we have focused on keeping our customers happy and satisfied with our products and services.

Key Facts

Nature of Business	Manufacturer
Primary Competitive Advantages	peb logistics park shed,pre engineered godown structure,peb godown,peb dal mill shed,peb rice mill shed,pre engineered industrial shed,pre engineered structures,pre engineered steel building,pre engineered building,peb steel building
No of Staff	15
Year of Establishment	2009
No of Production Lines	1
OEM Service Provided	No
ProductRange	peb logistics park shed,pre engineered godown structure,peb godown,peb dal mill shed,peb rice mill shed,pre engineered industrial shed,pre engineered structures,pre engineered steel building,pre engineered building,peb steel building

Our Products

Industrial MS Pre Engineered Structure

Prefabricated Warehouse Building

Prefabricated High Rise Steel Building
