About Us

Karan Laborates is a prestigious company, working with the goal to have responsible care and continuous innovation. We are on a vision to become a self realized, market-driven and globalized chemical company. To attain the vision, we have been working as a manufacturer, trader & exporter of Alizarine Complexone, Bacteriological Peptone, Biological Stains, High Purity Metal Salts, Barium Acetate, Diacetone Alcohol, Alpha Naphthol Benzein, Ammonium Chloride and many other products.

After serving this industry as a distributor for more than 4 decades, we started our voyage as a manufacturer of several products that are used in Chemical Laboratory and R&D Testing Labs.

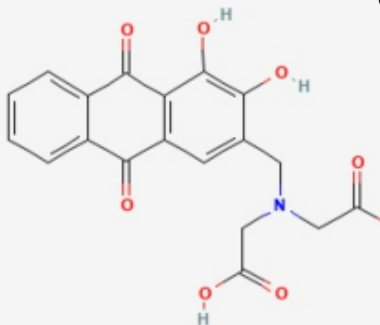

With support of an experienced team and advanced technologies, we are supplying supreme quality chemicals as per the requirements of customers. At our premises, we ensure that uniformity is maintained in the quality of offered all the products. Further, being focused towards protecting nature, we ensure that our business tasks do not create air and water pollution.

We are setting benchmarks and delighting customers on grounds of its on-time delivery and eco-friendly packaging which we do on our products as per the demands of customers.

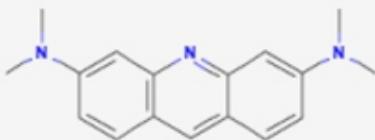

Quality Assurance

Our organization fully abides by the quality management and standards defined by the industry. In order to bring forth high quality chemicals to customers, we work with planned approaches. Each offered product is prepared at our premises with utmost care, taking right blend of several ingredients. Further, our products are examined at testing laboratory to examine superior quality and have assurance about it.

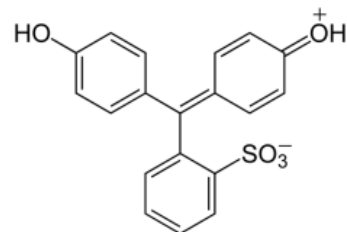

Our Prodcuts

Alizarine Complexone

Acridine Orange Base

Phenol Red

ACID CASEIN HYDROLYSATE

Acid Casein Hydrolysate

BACTERIOLOGICAL PEPTONE

Bacteriological Peptone

BRAIN HEART INFUSION

Brain Heart Infusion

LACTALBUMIN HYDROLYSATE

Lactalbumin Hydrolysate

ALUMINIUM AMMONIUM SULPHATE

Aluminum Ammonium Sulphate

BARIUM ACETATE

Barium Acetate

ANTIMONY POTASSIUM TARTARATE

Antimony Potassium Tartrate

1 - BUTANESULPHONIC ACID SODIUM SALT AR

**1 - Butanesulphonic Acid
Sodium Salt Ar**

POTASSIUM HYDROGEN PHTHALATE

Potassium Hydrogen Phthalate

Alpha Naphthol Benzene

1 - AMINO - 2 - NAPHTHOL - 4 SULFONIC ACID

1 - Amino - 2 - Naphthol - 4 Sulfonic Acid

Dyestuff Intermediates

1, 10 PHENANTHROLINE

1, 10 Phenanthroline

Barium Diphenylamine Sulfonate

Barium Sulphate
