## RIDE ON AUTOMATIC SCRUBBER DRIERS

### CT 80

#### FEATURES

Solution distribution from brush centre.  
Self-levelling electronic system.  
D Squeegee for the highest drying.  
Easy to use, thanks to intuitive commands.  
Function simply with a command on pedal.  
It includes brush and suction delayed stop.  
Brushes, blades replacement without tools.

### Coral

#### FEATURES

Huge tank capacity in minimum space.  
High quality Powerful vacuum motor.  
Brush replacement without tools  
Inlet and outlet filters for protection.  
Squeegee designed to absorb impact.  
Three solution distribution options:  
Standard, Automatic & Economy.

### CT 110 BT 85

#### FEATURES

Huge tank capacity in minimum space.  
High quality Powerful vacuum motor.  
Brush replacement without tools.  
Squeegee designed to absorb impact.  
Three solution distribution options:  
Standard, Automatic & Economy.  
Great visibility whilst working.

### Tennant T 17

#### FEATURES

Optional pressure washer delivers a 2500 psi spray to clean.  
Optional suction wand quickly picks up lightweight debris.  
Optional Pro-Panel™ technology, has multiple cleaning settings.  
Increase productivity with the Touch-n-Go control panel.  
Step™ start button that remembers previous settings.  
Machine works up to eight hours on a single charge.  
Reduce water use up to 70 percent with ec-H2O™ technology.

### GT 70 Plus

#### FEATURES

ECO Mode can increase work upto 5 hours.  
It has speed regulator for faster working.  
Parabolic Squeegee for the highest drying.  
Easy to use, thanks to intuitive commands.  
Function simply with a command on pedal.  
It includes brush and suction delayed stop.  
Brushes, blades replacement without tools.

### KV 95

#### FEATURES

Floors are clean & dry, for use in seconds.  
Easy to clean solution and recovery tanks.  
Simple to operate and use, Silent working.  
Less fatigue and increases productivity.  
Intelligent controller, Motor soft start.  
Long battery life and high quality parts.  
Headlight for easy to work in dark areas.

### GT 110 Plus

#### FEATURES

Squeegee & Brushes Actuator controlled.  
Speed regulator for variable working need.  
Parabolic Squeegee for the highest drying.  
Solution flow is released automatically.  
Brush Pressure Boosting System.  
EASY DOSE SYSTEM to save chemical use.  
Brushes, blades replacement without tools.

### KV 120

#### FEATURES

Easy to clean solution and recovery tanks.  
Work noise is very low and Prolonged battery Life.  
Reduces operator fatigue and increases productivity.  
Intelligent controller, Motor soft start, Protect motor.  
Head Light for working in dark areas, for safety of use.  
Pump for water, eliminates problem of less water output.  
High quality parts ensure the reliability and durability.

## SPECIAL APPLICATIONS MACHINES

### ULTRA COMPACT BATTERY OPERATED SCRUBBER

## Caddy Clean

*Super Lion*

Model	Caddy Clean	Super Lion
Voltage	Volts	14.4 DC
Battery Work Time	Hr.	4 to 5
Scrubbing Width	mm	210/95
Adjustable Length	mm	915-1270
Speed	rpm	480
Water Tank Capacity	Ltrs	1.7
Weight	Kg.	2.3

### BATTERY OPERATED LITTER PICKER MACHINE

## Litter Picker

*Battery / Engine*

Model		LP -240
Voltage	Volts	24/36/48 DC
Battery Work Time	Hr.	up to 8 hrs.
Suction Hose Dia	mm	100/125
No. of Wheels		4
Dimension	mm	1775x900x1790
Collection Tank Capacity	Ltrs	240
Weight	Kg.	365

### BATTERY OPERATED MOPPING SCOOTY

## Mopping Scooty

*Battery Driven*

Model	KM 900	Mopping Scooty
Battery	Volts	12V x 4
Supply	-	48V, DC
Cleaning Width	mm	900
Working Speed	km/hr	5 to 6
Net Weight	kg	75 Approx
Mopping Type	-	Dry, Cotton or Acrylic Mop

### VACUUM LEAF COLLECTOR MACHINE

## Leaf Collector

*Engine Driven*

Model	KL 780	Leaf Picker
Engine Power	-	Petrol / diesel
Working Capacity	Sq.m/hr	3000
Cleaning Width	mm	780
Collection Bag Capacity	Ltr.	400
Net Weight	kg	70 Approx
Application	-	Leaves & Litter Collection

1250

155

120

1350

1200

400

All Clean

## FEATURES

- Perfect cleaning Thanks to the self-leveling brushes which adapt to even the most irregular floors
- Central brush and filter replacement without tools.
- display with diagnostics, battery charge indicator and hour counter
- self-cleaning dust filter, It is periodically cleaned by an automatic system linked to the various work programmes.
- Easy to use, innovative preset cleaning system with three different work levels.
- Pleated micro fine polyester filter with large. surface area
- Hydraulic power steering
- Hydraulic pumps for movement of traction motor wheel.
- Hydraulic dumping
- Debris flap in stainless steel
- Special enlarged easy to clean radiator
- Effective filter shaking system

### FEATURES

#### PWC 23

Immediate total stop (the machines goes off automatically when trigger gun is released)  
Axial pump with aluminium alloy head  
Stainless steel pistons with excellent mechanical characteristics

#### PWC 45, PWC 21, KVC 150/200/350

Plunger pump with brass head and ceramic pistons  
Adjustable pressure as equipped with pressure gauge  
Easy Oil-fill-Empty system,  
Asynchronous motor 4-pole class S-1 (continuous Duty)

### FEATURES

Large diameter wheels in order to facilitate movements  
Machine equipped with temperature stabilizer and micro leakage control  
Pressure adjustment and steam knob, allowing pressure to be adapted to various cleaning situations  
Accessory storage compartment  
Crankshaft pump with brass head and ceramic pistons  
Sturdy and large tank in rotomoulded plastic material

Electric motor, 4-pole, 1400 rpm, continuous duty with double bearing and thermal cutout. Extends the working life of mechanical components  
Delayed Total Stop  
Intelligent Automatic Switch Off  
Micro Leakage Control  
Dry Running Protection  
Lance Nozzle Clogged Control  
Ignition Boiler Delay  
Working Hours Counter  
Temperature Stabilizer Lime-scale/Corrosion Protection Unit
