## About Us

After extensive research on electrical products, we, P.C. Industries, an ISO 9001:2008 accredited company, came into formation. We are reckoned as one of the key manufacturers of PCIPECO & PECO brand products such as Low Voltage Switchgear Power Press, Hand Press, HRC Fuse Link, HBC Fuse Holders, Fuse gear products etc. Since inception in the year 1995, we have been catering to the grooming needs of power stations, railways, telecoms, mines, etc. Designed as per the Bureau of Indian Standards, our products are reckoned in the market for compactness, durability, ease of operation and application. Our expertise lies in offering solutions in different customized specifications as per clients specific needs.

We have devoted more time in developing the gamut in bulk quantity and meeting the demand on time. Our goal is to provide quality and beneficial products at best prices within the stipulated time frame. Prior to dispatch, all the products are tested by our experienced quality inspectors for durability, performance, and effectiveness. All the products are tested to latest relevant BIS/IEC specifications. Publications, price lists and other technical documentations are available on request. Active distributors in major cities, from all countries, are solicited.
