About Us

Incorporated in the year 2005, Tavron Engineers is a well established name in the marketplace as a manufacturer, supplier and exporter of Beverage Equipment, Beverage Processing Equipment, Chemical Equipment, Bulk Cooler, Dairy Equipment, Dimple Jacket Tanks, and more. The offered equipment are manufactured by using quality tested raw materials to assure their high performance. We conduct our manufacturing process by following modern techniques & production methods to attain engineering perfection. Further, our Spray Dryers get immense appreciation from our clients for their optimum drying capability, easy operation, compact structure, low power consumption, etc. Owing to our quality products like Beverage Equipment, Beverage Processing Equipment, etc , we successfully cater to the requirements of food, dairy, pharmaceuticals, beverage, and allied industries.

To productively run our business, we have established a highly advanced business setup which is equipped with current day facilities. Our manufacturing unit is installed with high performing machines & tools for the production of defect-free products at low cost. These machines are regularly inspected to check their working state and perform the necessary maintenance activities. We have a highly efficient team, comprising experienced, reliable and hardworking professionals who are taking our growth to a whole new level. Our network of distribution is well organized and expanded to nearly all major countries in the world.

Key Facts

No of Staff	75
Year of Establishment	2005
OEM Service Provided	No

Our Products

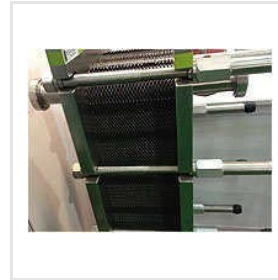

Industrial Spray Dryer

Stainless Steel Tank

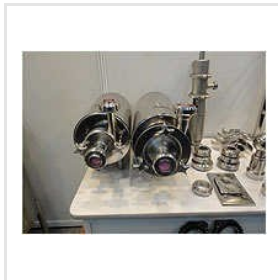

Evaporative Plant

Flat Plate Heat Exchanger

Large Scale Evaporators

Industrial Lobe Pumps

Electric Centrifugal Pumps

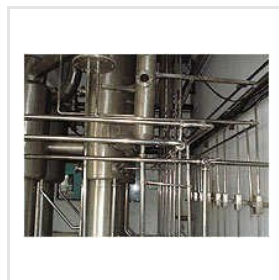

Industrial Plate Heat Exchangers

Conventional Plate Heat Exchanger

Industrial Heat Exchanger

Industrial Vacuum Evaporating Plant

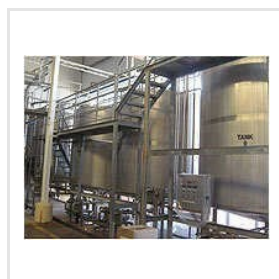

Wastewater Evaporators

Laboratory Spray Dryer

Rotary Spray Dryers

Industrial Pressure Tanks

Industrial Storage Tanks
