About Us

V M Traders, founded in 1982 by Mr. Maruti Padwal, is among the major importers and exporters of bearings. Our company has excellent goodwill and brand in the market because it is located in the Indian business hub, Mumbai. Our firm specializes in Ina, Tsubaki, Ozak, and McGill bearings. We have a wide assortment of bearings that are beneficial in various markets and sectors. We also offer a showroom to help with quick service and to meet the needs of the general public.

We have kept up our leadership position in the cam clutches, bearings, and rod-ends trade sector by adhering to the quality standards throughout the years. Our exceptional customer service guarantees that all requirements of our customers are satisfied right away.

Our Vendor Base

We are committed to offering the greatest quality variety of Linear Bearings, Thrust Bearings, Ball Screws, and other Products as a client-centric firm. Our main emphasis and obligation are to adhere to a strict procurement procedure that starts with selecting well-known manufacturers. We chose to work with them because of their excellent reputation in the market. As a result, our vendors include the most significant and well-known firms. We ensure that quality items are sourced following the exact requirements of our clients with the aid of our skilled procurement agents.

Quality Assurance

We can pay close attention to demanding quality measures and norms with the help of our devoted quality checkers since they determine the product worth. We ensure that our items are sourced from merchants that guarantee product authenticity and quality. We also undertake thorough quality tests at our end to avoid any faults or problems.

Roller Bearings, Linear Bearings, Thrust Bearings, Shaft Couplings, and other items are rigorously inspected to guarantee that they meet ANSI standards. Furthermore, our cutting-edge customer service guarantees that the quality standards of our clients are met promptly. Through ongoing advances, simplification of work operations, and product line enhancements, we try to preserve our position of consistent quality.

Thanks to the impeccable product quality, we have maintained our stable position as a leader after being in the company for more than 25 years. Our bearings, rod ends, cam clutches, and other products are highest quality, dependability, performance, and durability. We have a staff of qualified experts who meticulously examine all imported items against strict quality requirements. Only after ensuring no errors are the products shipped to customers. By assuring product delivery on time, we leave no room for complaints from our valued clients.
