About Us

Measurement is an activity of finding out and comparing the physical quantities of different objects and occurrences. Accurate measuring instruments facilitate smooth execution of various physical sciences, quality validation and engineering activities. Since its inception in 1985, Harshman Gauges & Engineering Company is engaged in the production of high precision-engineered Measuring Gauges, Measuring Tools, and Measuring Instruments. Its commitment to ensure impeccable product quality and developed business sense made it a leading Exporter, Manufacturer, Wholesaler/Distributor, Supplier and Trader of a comprehensive range of products. Under the able management of our owner Mr. Manish Shah, we have favorably acquired a wide base of loyal clients, who place bulk orders with us frequently.

We take adequate measures to assure that the products delivered by us are of optimum quality and efficiently meet the customers' requirements. The products that we trade in are procured from the leading manufacturers, who are renowned for their product quality. We deal in products like Measuring Gauges, Plug Gauge, Thread Ring Gauges, Plain Plug Gauges, Plain Carbide Gauges, Thread Measuring Wires, Pin Gauges, 3 Wire Units, Taper Gauges, Precision Levels, Sine Centres, Millimess Zentimess Supramess, etc. The products are thoroughly inspected at our end before they are delivered to the clients in order to assure them of total quality.
