

Chemicals & Engineers Pvt. Ltd
(Conserve Water-Conserve Life)

BISAN CHEMICALS AND ENGINEERS PVT.LTD.

ELECTRICAL DEPARTMENT

ELECTRICAL CONTROL PANELS

Our organization is engaged in Manufacturing and Supply of a wide assortment of Electrical Control Panel.

Based on the latest technology, the entire product range is offered in varied specification to suit the different varied needs of our client. The raw materials used in the manufacturing of this range are procured from the reliable vendor. Owing to the feature like durability, easy installation and low maintenance have helped us gain a huge client base in the domestic market.

Advantages:

Bisan Chemicals and Engineers Pvt.Ltd. Believe on time Delivery and commitment to ensure the same we work with Skilled man power and operate from in-house manufacturing Unit that works with the assistances of a dedicated project and team.

Key Strengths:

Technical Expertise
Quality Products

Competent Team
Reliable Service

24*7 Technical Team Service
Cost Effective

AREA OF EXPERTIES

- | | | | | | |
|-----------------------------|----------------------------|-------------------------|-----------------------|---------------------------|----------------------------|
| ▶ MCC Panel | ▶ PDB Panel | ▶ PCC Panel | ▶ APFC Panel | ▶ AMF Panel | ▶ VFD Panel |
| ▶ Industrials Starter Panel | ▶ Instrument Control Panel | ▶ Local Control Station | ▶ Control Panel Board | ▶ Industrial Junction Box | ▶ Distribution Panel Board |

MCC POWER PANEL

In order to meet various industrial requirement of our esteemed client, we provide best quality MCC Panel. Have the capacity to feed larger loads comprise of full voltage non-reversing and full voltage reversing starters, the given range of panels is well manufactured using best quality materials keeping in the mind industrial preferred norms.

MCC (Motor Controller Centre) Panels that are manufactured using high quality raw materials. These are the instrumentation panels possessing quality features like user friendly operation and minimum maintenance.

POWER CONTROL CENTER PANEL

We are one of the eminent names, engaged in providing an array of Power Control Panel (PCC). Our offered range is designed in conformation with international quality standards. Our PCC panels, which are used for diverse industrial application.

APFC PANEL

We manufacture optimum quality APFC Panels. Owing to their energy efficient design, longer serving life, high performance and low maintenance, these APFC Panel offered by us are highly demanded in the market. These offered APFC Panel can be customized in accordance with requirement and demand provided by the customers.

PLC PANEL

Ease in modification of logic, reduced size, means of remote communication and advances in the technology have made PLC Panel an edge over conventional relay based system, control system engineers has provided PLC based panel from PLC of Siemens, Schneider, Allen Bradley and Delta, from small I/O application to the complex I/O system are provided by the control system engineers with PLC Based Panel HMI/SCADA are provided to provide the operator various messages and control of the process plants touch screen HMI are provided to effective control of the system .

VFD PANEL

We manufacture VFD Panels suitable for all type of industrials power and process requirements.

ELECTRICAL CONTROL PANEL
