Avyukt Chem LLP

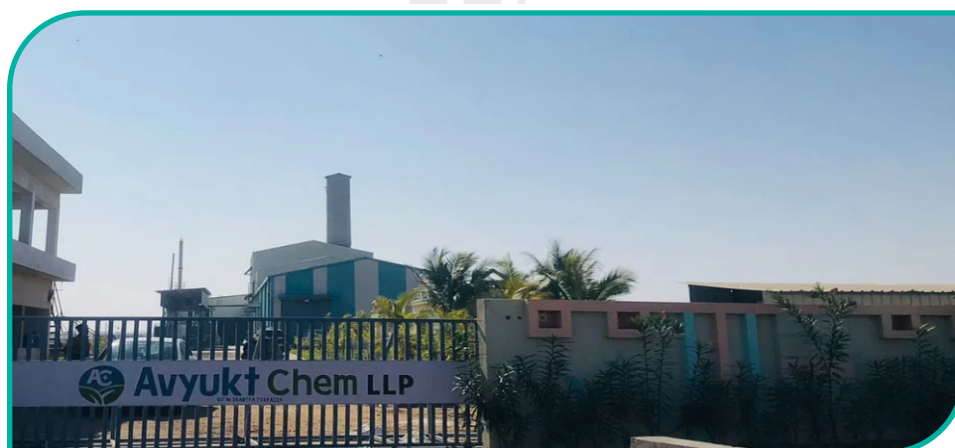

GATEWAY TO KNOWLEDGE

Who We are

Established in 2021 in Morbi, Gujarat, Avyukt Chem LLP., deals in a variety of chemicals such as Chemicals & Pharmaceutical intermediate products, etc. All this is possible because of our well-equipped research and development facility, which is the key to our success. It helps us immensely to develop new products according to the latest market trends and developments. Our highly expert team of employees helps us fulfill our commitments and ensure that every project we undertake is completed on time. We also customize these products according to the requirements of our customers and market demands. The manufacturing facility of Avyukt Chem LLP is located at Amran, Morbi, Gujarat which is one of the fast growing industrial and commercial zone in Gujarat.

The facility includes a dedicated manufacturing plant for Chemicals and Pharmaceutical intermediate. The facility is fully equipped with all basic infrastructure, warehouse, utilities, and an in-house QC Laboratory equipped with the latest testing equipment to ensure that the best quality products are delivered to our customers. We strongly believe on delivering the best quality products to the reputed customers at most economical price ensuring safety and environment protection while manufacturing the product. We do in house research and development of the product based on the customer needs. With the kind of strong expert team on technical and commercial sides, we strive to ensure customer needs are addressed with strong sense of urgency.

OUR VISION

Our vision is to be a leading pharmaceutical intermediate company in India and to become significant global player by providing high quality, economic and innovative solutions to the customers

Our Mission

We shall provide total customer satisfaction and achieve leadership in pharmaceutical intermediate markets, products and services across India and globally through excellence in technology based on world class research and development. We are responsible to the society. We shall be good corporate citizens and will be driven by high ethical standards in our practices.

Innovations at Avyukt

Research and development are the key of our success. It helps us to bring new modified and innovative products to the growing needs of our customers and market.

Modern Facilities

Our company occupies a large acre of land and has an in-house quality testing facility, a well-developed infrastructure, and well-divided departments. Our infrastructure is well-equipped with all the machines, tools, and technology needed for the manufacturing of these products. We regularly clean and upgrade these machines. This increases productivity and ensures quality products. To ensure that our products reach a wider audience, we provide these products to our customers at affordable market prices. We believe that all of this is of no use if the products are not delivered to customers on time, and thus, we ensure the timely delivery of each product.

As responsible citizens of the world, we also do our part in environmental protection. For that, we have taken several proactive steps, such as trying to reduce as much waste as we can. Our infrastructure comprises of:

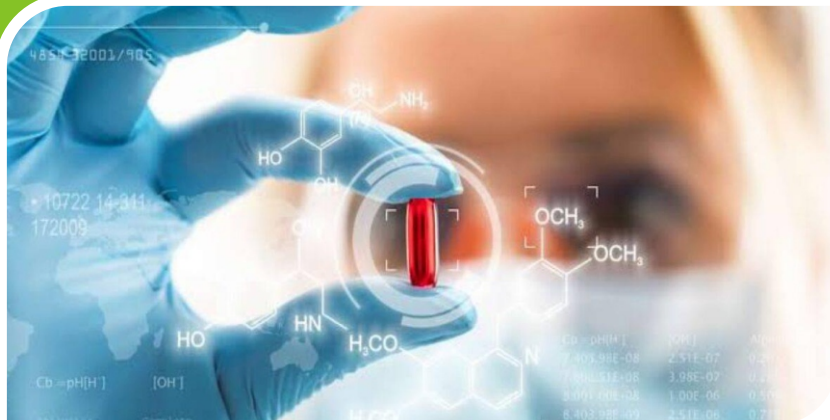

- ▶ Research & development unit
- ▶ Production Unit
- ▶ Quality testing department
- ▶ Sales & marketing unit
- ▶ Packaging unit, etc.

Technology

The machines are regularly upgraded and maintained to ensure high productivity. These machines help us carry out various processes such as condensation, nitration, dehydration, etc.

Quality Assurance

Quality assurance is one of the most important steps in our project delivery. We make sure to deliver such items that adhere to the set industrial and company standards. For that, we take several proactive steps, such as listening to the requirements of our clients and customizing their products accordingly. All our products go through various quality assured tests and after that, they go through specialized tests for quality improvement. We constantly keep an eye out for ways to improve our quality.

We specialize in manufacturing several products that suffice the need of every third party manufacturing pharma industry.
