About Us

Set up in the year 1985, Jasmine Electronics and Electricals is an unmistakable association and is a Exporter, Trader, Distributor and Supplier that provides a remarkable exhibit of Aluminium Cable Tray, Junction Boxes, Cable Trays, Earthing Materials, 4 Way Entry Pallets, Cable Glands and Terminals, Junction Boxes and Enclosures, Aluminum and FRP Ladders, Electrical Products and Accessories, Safety Products, etc. These exhibited products are internationally known for their sturdiness, long life and exact measurements. Offered products are produced by the use of preeminent quality information sources and propelled machines at the premises of our merchants as per the clients requirements.

We are effectively occupied with exhibiting an extraordinary nature of our offered products since we are sponsored by our colossal group of experts. Enlisted from among the best gifts accessible in the business, our offered colleagues are well acquainted with the information of this space and are attempting to effectively complete every one of their errands with flawlessness and precision. Additionally, their capacity to comprehend and grasp the changing and imperative necessities has earned us broad appreciation and information in this field. Additionally, our routine workshops and instructional trainings have helped us in achieving a main notoriety in the business. Under the support and strict headship of our respected mentors, Mr. Jatin Shah and Mr. Pratik Shah, we have come up as a dynamic group and till date have kept up ourselves as a noticeable name in the business. His capacity to be straightforward in all business bargains has earned us supreme heights of triumph.
