

## PNEUMATIC (VACUUM) CONVEYOR

## Features & Benefits

- Unique, modular design for a countless number of applications
- Easy material discharge, large discharge valve openings
- Extremely gentle to the material transfer.
- High levels of hygiene when transporting materials
- High operational safety and reliability
- No generation of heat
- Strong Suction Power and high material transfer efficiency.
- The unit comes with in-built reverse pulsejet cleaning.
- Simple control panel provided for ease of operator use.
- Multiple loading and unloading positions in different locations.
- The material quality and consistency of the components that are used
- Mild steel, 304 stainless steel or 316 stainless steel constructions are available.
- Process engineering and support, directly from the manufacturer
- HEPA filter optional.

## TECHNICAL SPECIFICATION

- Capacity - 0.5 ~ 20TPH
- Distance - Horizontal ~ 100M / Vertical ~25M
- Power - 3HP ~ 60HP
- Voltage - 415V
- Control Voltage - 220V
- Suction - 270 ~ 6000 mbar
- Air flow - 350 ~ 12000 CFM
- Filter - Cartridge / Bag / HEPA
- Filter efficiency - 99.7%,  $\leq 0.3\mu\text{m}$

Manufactured by

## **ALTOMECH PRIVATE LIMITED**
