

RUHANI LUBRICANTS

Near Viraj Residency, Shead no - 1, Near Maize products mill,

Singarva- 382430 Ahmedabad, Gujarat

Phone no.: +919313687263 Email: inforuhanilubricants@gmail.com

GSTIN: 24AFCPL1079H1ZN, State: 24-Gujarat

We are leading suppliers of Lubricating Oil and Industrial Processing Oil in PAN India.

We are manufacture around 200 Tons of Lubricating Oil per Month and made difference type of Lubricating Oil:

- ❖ Lubricating Oils,
- ❖ Grease,
- ❖ Automotive oil &
- ❖ Industrial oil ,
- ❖ Viscosity Index Improver.
- ❖ VI Polymers Etc.

Established in the year 2021, We ***Ruhani Lubricants***, are an eminent manufacturer and supplier of an extensive array of lubricants or automobile oils. Assuring the clients of better functioning of their vehicles, these lubricants adhere to the Indian standards of quality.

We are dedicated to operating our facilities with almost respect for the communities & environment in which we all live & work as they constitute an integral part of our business philosophy effectively driving sustained growth.

Ruhani Lubricants has been certified for Quality Management System (ISO 9001:2015) as well as DIC.

We are also manufacture around 4500 Tons of Industrial oil per Month and made three grades of Industrial Processing Oil :

- ❖ RL IPO (DY/LY/LG/W/B): Density (0.801 to 0.835 g/cc)
- ❖ RL LDO/FUEL : Density (0.835-0.910 g/cc)
- ❖ RL FURNACE : Density (0.91 TO 0.96 g/cc)

We import some Industrial Chemical and Petrochemical from Worldwide for Trading to our Valuable clients:

- ❖ MTO: Density (0.774 to 0.785 g/cc)
- ❖ BASE OIL : N-70/150 & SN-70/150/500 etc.
- ❖ Fuel (Furnace/LDO) : Density (0.865-0.950 g/cc)

We manufacture and extract some Organic Waste and Waste Feeds :

- ❖ RL CNSL : Density (0.93-0.960 g/cc)
- ❖ RL CARDANOL : Density (0.93 TO 0.935 g/cc)
- ❖ RL EPOXY RESIN and CNSL RESIN :

We recommend you to replace your LDO with our RL IPL/LDO and Furnace oil with our RL FURNACE FUEL.

It is a 100% replacement of LDO and Furnace oil.

Advantages Of RL FURNACE :

- ❖ No Need Of Preheating.
- ❖ Low sulphur Content.
- ❖ Low Carbon Content.
- ❖ Density And Viscosity Is Less.
- ❖ High Calorific Value.

Thanks & Regards,

Mr. Jasminkumar Lalkiya | Technical Head - Operation |
