About Us

Within short space of time, we have gained accolades by serving our valued clients with unrivaled machine spares in the nationwide market. Our entity is a genuine solution provider that source spares and machinery from Alang that is one of the largest ship breaking yards in Asia. We keep up marine supplies in several grades for meeting demands of customers in the industry.

Our trader and retailer based firm assures to be involved in maintaining A-grade stock of used, reconditioned and new industrial items that match up to ongoing needs of the customers. We possess capability of assisting our valued clients in using reconditioned machines. We sternly examine ship spares and more items for keeping our industrial customers free from concerns in relation to quality.

We are a top choice for ship spares and allied industrial offerings. We are proud partners of financially strong manufacturers that help us get the most excellent variety of products. Our Bhavnagar based company aims at gaining huge share in the market with superior range of spares and related items. We maintain spares in the best condition to assure customers about their usage in the effective manner. Our company has been dealing with several prestigious customers by continuously meeting requirements for top in quality Auxiliary Engines, Pressure Indicators, SKF Bearing Pullers, etc. We maintain strong business presence by offering the best customer services.

Infrastructure

Our company has vendors with a high-tech infrastructure that keeps in a position to manage all kinds of orders with extreme smoothness. Our company prides on vendors to maintain top-quality spares and machines in their manufacturing department that allow to process order requirements in the most efficient manner. Our vendors have maintained an accurately furnished quality department that helps us to gauge reliability and efficiency of items. After sourcing, we maintain strict process for evaluating quality of our products like Pressure Indicators, Shafter Terminal Boards, etc.
