Certificate of Appreciation:
To whom-so-ever may it concern

Johnson Controls is a world leader in Refrigeration and Air Conditioning business. Johnson Control, India has installed refrigeration plants in sectors: oil and gas refineries, chemical industry, textile industry, pharmaceutical industry, food & beverage industry and so on in last couple of decades in India.

M/s. Manik Engineers, Pune India is manufacturer of various controls, instruments and turnkey solution requirements for refrigeration and air conditioning industry in India. **M/s Manik Engineers, Pune** is an approved supplier of Johnson Controls, India. They are known for reliable, trusted product quality, excellent delivery and dependable after sales service. The sharing of technical know-how of application practices to end users for smooth functioning of plant is unparallel in the industry.

Johnson Controls, India has used their products: liquid level controllers, solenoid valves, non-return valves, oil drain valves, dual safety valves, a pressure regulating valves, automatic air purgers, ammonia leak detection systems, temperature monitoring systems, a water and oil removal systems, compressor capacity controllers and so on. These products are available in various sizes and capacities as per requirement of refrigeration plants. The performance of these valves is found to be excellent for past several years.

We wish **M/s. Manik Engineers, Pune, India** all the success for their all future endeavors to give excellent service to customers in India and across the world.

Enriching Lives

"TO WHOMSOEVER IT MAY CONCERN"

We are pioneers in India in manufacture of Refrigeration Compressors and in executing Air conditioning / Refrigeration Systems. We manufacture Ammonia and freon Reciprocating and Screw Compressors and undertake turnkey Projects involving, installation and commissioning of Air Conditioning and Refrigeration Systems.

We have been using the combination of Ammonia Float Controller and Liquid Line Solenoid Valve both supplied by M/s. Manik Engineers (720/8, Navi Peth, Shastri Road, Pune - 411030, Maharashtra, India) for Capacity Control of Ammonia Refrigeration Systems designed and installed by us.

We have installed more than two hundred sets in Plants installed by us. We have used these sets in our Export jobs to South East Asia.

The Controller and Solenoid Valve supplied by M/s Manik Engineers are quite robust and give reliable performance. We have standardised these equipments in our Ammonia Flooded Systems for more than ten years.

To
M/S Indotec Engineers
142/8 Linghi chetty street,
Parrys, Chennai - 600 001

Dear Mr. Mohit Jain,

We are pleased to inform you that all MANIK make control valves & air purger system and DHIREN make Stop valves supplied by you in our plant are working satisfactorily.

We have installed following,

1. Automatic Air Purger
2. Liquid Level Controllers
3. Solenoid Valves & filters
4. Non Return Valves
5. Pressure regulating valves
6. Two stage gas operated solenoid valve for hot gas defrosting
7. Safety Valves and Dual Manifold
8. Data logger & sensors
9. Automatic liquid drainer
10. Stop Valves & Expansion valve

We are very happy with selection guidance, product performance, on time delivery and service offered by M/S Indotec Engineers.

We appreciate your "Made in India" products by Manik Engineers, which has saved on our initial investment cost as compared other international manufacturers.

Your support through the project has been excellent. We look forward to work with you in our new project.

We wish you a great success.

Subject : Excellent performance of refrigeration Controls.

Dear Sir,

We would like to extend our sincere appreciation and gratitude for the quality of controls delivered to us by your company. It gives us immense pleasure to inform you that we are successfully running as many as 49 refrigeration plants since the year 1990. We would also like to mention that your controls fitted in these systems are giving us excellent performance throughout their operation/life span without much troubles. We have observed that due to this controls refrigeration systems are operating smoothly without much trouble. We are indeed very satisfied and happy with its service and functioning.

No doubt, a well planned and properly maintained/balanced refrigeration system at our place is also one of the reasons in smooth functioning of these refrigeration controls. The timely check ups and good watch of operator on this sophisticated controls and safety devices in refrigeration system also shares the credit for this.

Very shortly we are going to install 50th refrigeration system with the same enthusiasm as the 1st, we feel proud being owner of such excellent refrigeration systems equipped with good controls.

We want to share this joy with you as you are the manufacturers of the well functioning controls of our refrigeration systems.

Regards,
For Pandesara Industries Pvt. Ltd.

Shri Shekhar Kulkarni
M/s. Maniks
720/8 Navi Peth
Shastri Road
Pune 411 030

Dear Shri Kulkarni,

When we met at Anand on 20.7.94 you did mention to me about our non acceptance of "Maniks" electric float for the refrigeration plant at the GAU Dairy. I have had the matter verified. Our contract with Kirloskar clearly stipulated supply of "Danfoss" make controller and therefore, it was not possible to make any deviation, as it had substantial financial implication. We are, however, satisfied with the performance of electric float of "Maniks" make and have recommended its use for installation in our other projects.

It would be appropriate if you now kindly contact the various refrigeration plant suppliers and inform them about your product. Your product would be accepted, if offered by any of the bidders.

With kind regards,

Yours sincerely,

February 15, 1993.

TO WHOMSOEVER IT MAY CONCERN

This is to certify that we have installed two sets of Electronic Liquid Level Controllers alongwith Liquid Line Solenoid Valves supplied by M/s Manor Enterprises for our two BLAST FREEZERS in December, 1992 and one for Block Ice Plant in January, 1993.

We have found that this system is very efficient and it has resulted in:

- substantial reduction in time required for attaining the temperature.
- better quality of freezing and
- remendous saving in power consumption as is evident from statistics given below indicating difference in performance by installation of floats :

	before	after install.
1) Average time required to attain temperature	16 to 18 hrs.	8 to 10 hrs.
2) % saving in time	-	50 to 56%

B)	Before installation	Ater installation	Saving of Units
	Dec.1992 73,972 KWH	Dec.1993 57,248 KWH	Compared with Dec 16,724 KWH
	Jan.1992 99,306 KWH	Jan.1993 84,262 KWH	Compared with Jan 15,044 KWH

Monthly power bill saving of Rs.36000/- to Rs.38,000/- observed for last two months compared with same months of previous years. The production quantities remaining almost equal for the months of comparison.

The liquid stroke to compressor is now totally avoided Due to remote on-off indication in plant room, vigilance and skill on the part of the operator is greatly reduced.

We recommend these controllers and solenoid valves for deriving multiple benefits of a) power saving, b) reduction in maintenance costs, c) better plant capacity utilisation and d) reduction in no. of skilled operators.

AN ISO 22000:2005 CERTIFIED COMPANY

KAMBOLIWALA DAIRY

Ref.

Date: 09-03-2016

TO WHOM IT MAY CONCERN

This is to certify that Plant automation system supplied and installed and commissioned in our plant is working satisfactorily. The total system is easy to operate and maintain to its satisfactory level to control all parameters in our refrigeration system.

Manik has installed following system for up gradation.

1. Automatic Air Purger
2. Compressor Automatic Control System
3. Cold room Level & Temperature Management System.

We have observed following effects of the system installed on our plant.

- 1.—our Compressor discharge pressure (KC-51) REUCED TO 12 KG/SQ. CM,
- 2--- The average compressor motor power consumption has reduced .
- 3—The overall compressor compressor running hours rediced.
- 4—We have achived -30 degree centigrade cold room temp. which were not able to go below -25 degree centigrade.

We are to note that we are able to achieve desired temperature through this modification and up gradation system and also reduce the over all power consumption. This has improved our product freezing quality and reduced freezing time.

We are thankful to MANIK ENGINEERS FOR DEPUTING SERVICE TECHNICIAN Mr. S ANJAY. He has carried out entire job intelligently without disturbing our production.

We appreciate your company efforts for developing such technology , we are proud to be associated with MANIK as it is an exemplary "MAKE IN INDIA "company and also economic operation of plant .

We wish Manik for great success in future.

Dt. 11th September, 2009

TO WHOMSOEVER IT CONCERN

We have installed Manik make Air Purger type SGP2 on our refrigeration system with KC-4 and KC-6 compressors at Zahirabad plant. The main purpose was to study the possibility of energy savings by retrofitting Manik make Air Purger type SGP2 System on refrigeration plant.

We have observed the reduction in Discharge (head) pressure of compressor. This unit is completely factory assembled and is very easy to retrofit and user friendly.

After successful trial of one Air Purger, so far we have installed around 10 Nos. of Air purger systems at our various plants in India for both gravity as well as pump recirculation refrigeration plants.

The manufacturer is M/s. Manik Engineers, Pune.

MOM held with FCAL-Zaheerabad and Manik Engineers –Pune

Subject: PRCC Panels commissioning work for automation of KC – Compressors.

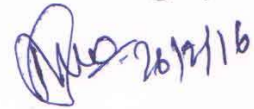

Points discussed and noted:

1. PRCC Panels installed as per FCAL-Compressors located.
2. PRCC Panels wiring was done as per Manik –drawing.
3. PRCC Panels wiring checked by Mr. Sanjay (Manik Engineer).
4. Start the KC –Compressors by auto mode which is connected to PRCC Panels, total 06 panels commissioned.
5. Then both FCAL and Manik observed that sequence auto loading and unloading of particular KC-Compressors with set pressure is 0.03 bar.
6. Now all those Six- KC-compressors (KC51, 1 to 4, KC42, No-3 and KC72, No-1) running in auto mode under observations.

Dear Mr. Mohit Jain,

We are pleased to inform you that all MANIK make control valves & air purger system and MANIK make Stop valves supplied by you in our plant are working satisfactorily.

We have installed following,

1. Automatic Air Purger
2. Liquid Level Controllers
3. Solenoid Valves & filters
4. Non Return Valves
5. Pressure regulating valves
6. Two stage gas operated solenoid valve for hot gas defrosting
7. Safety Valves and Dual Manifold
8. Datalogger& sensors
9. Automatic liquid drainer
10. Stop Valves & Expansion valve

We are very happy with selection guidance, product performance, on time delivery and service offered by M/S Indotec Engineers.

We appreciate your "Made in India" products by Manik Engineers, which has saved on our initial investment cost as compared other international manufacturers.

Your support through the project has been excellent. We look forward to work with you in our new project.

We wish you a great success.

To,
Manik engineers,
PUNE.

Kind attn: Managing Director.

Subject: Letter of appreciation for Refrigeration Controls like level control 39Fl and Solenoid Valve.

Dear Sir,

We would like to extend our sincere appreciation and gratitude for the quality of controls delivered to us by your company. It gives us immense pleasure to inform you that we are successfully running COLD STORAGE since the year 1980..... We would also like to mention that your controls fitted in this system are giving us excellent performance through out their operation life without much trouble.

We have observed that besides smooth operation of Refrigeration plant, it also reduces the ELECTRICITY Consumption by about 10 % to 15 %.
Our total investment was recovered in 6 month.

No doubt, a well-planned and properly maintained refrigeration system at our place is also one of the reason in smooth functioning of these refrigeration Controls. The timely check ups and good of operator on this sophisticated controls and safety devices in refrigeration system also share the credits for this.

We want to share this joy with you, as you are the manufacturers of the well functioning controls of Refrigeration Systems.

Regards,
For Agrawal Cold Storage.

Dear Mr. Anand Joshi

We are pleased to inform you that plant automation system supplied and installed in our plant is working satisfactorily. The total system is easy to operate and maintain.

We have installed following systems

1. Automatic Air Purger
2. Compressor Automatic Control System
3. Room Level & Temperature Management system

We have observed following effects on our plant

1. Our compressor discharge pressure **reduced to 12 kg/sq. cm from 16 kg / sq. cm**
2. The average compressor (KC21, KC51 & KC42) **motor power consumption reduced by 25%**
3. The overall **compressor running hours reduced by 25%**
4. We are able to **achieve -33°C** room temperature. Earlier we were not able to go below -16°C.

Thus we are able to achieve desired temperature and reduce the overall power consumption. This has improved our product freezing quality and reduced freezing time.

The overall payback period for all investment is less than six 180 days.

We thank you for deputing your service technician Mr. Sanjay. He carried out all work intelligently without disturbing our production.

We appreciate your company efforts to develop, make and install all products. We are proud to be associated with your company as it is an exemplary "MAKE IN INDIA" company.

TO WHOM IT MAY CONCERN

We have been using Manik make various controls for Ammonia Refrigeration plant for more than a decade. In last two years we have installed following Manik Make controls for our Refrigeration plant.

1. Hot Gas Defrost System consisting of Solenoid valves with filters (SA series + FA Series), Defrost Relief Regulators (OFV), Two Step Solenoid valve (SPMLX), Non Return Valves (SNRVA), Defrost Controllers etc.
2. Liquid Level Controller (39FI), High Level and Low Level Controller (39FI), Non Return Valve (SNRVA), Strainers (FA) for Ammonia Pump recirculation vessels
3. Automatic Air Fuger (SGP2F-4PT) for removing non condensable gases & air. We have observed reduction in pressure after installation of air purger.

We are satisfied with performance of these manik controls and services provided by them.
