## COMPANY PROFILE

BRW is the undisputed market leader in cleaning aids/brushes in India. This company was established in 1985 and since then it is serving to the nation. We have a wide inspiring and loyal customer base, which is a continuous source of inspiration for new product development and innovations.

## Our Policy

To build sustainable relationships with customers. As their friend by satisfying their evolving hygiene and lifestyle needs through our products, that reflects innovation, become quality benchmark and provide real value for money.

## Our Strategy

A clearly defined strategy guides BRW's daily actions, i.e., adding new products, equipment and services to solve a brodening array of customer challenges and doing so around the world. Executing this strategy translates directly into our ability to help customers achieve germ-free surfaces and clean, sanitary surroundings, and fulfills BRW's ission to provide superior wipers and mops for a cleaner world.

## Our Goal

### Constant Innovation to Achieve Market Leadership

We strive to provide excellent products to our customers and continually conduct research into new products that will meet the needs of our clients. "Working together as a team, we will provide products and services that meet or exceed customer and industry specifications and standards. We are committed to continual improvement in all areas of our business to maintain the highest level of customer satisfaction in the industries we serve." We are committed to maintain market leadership through customer satisfaction and total quality management. Our leadership position is sustained through: Dedicated, well-trained employees working together in a cooperative environment. To continually improve product quality, skill and environment. Partnership with our customers, subsidiaries, representatives, distributors and suppliers; Innovation and continuous improvement in all areas of our business to upgrade technology to meet the changing needs of customers to supply quality products and services on time to customers.

## Quality Assurance System

Step up to issues with honesty and personal courage. Take responsibility. Lead by example. Our cleaning and sanitation has a define quality policy achieve better results through collaborative efforts and collective wisdom. Systematic interaction with customers for usages of products. Process and product development are based on periodic analysis of performance at user's end. Vendors are carefully selected to insure quality and reliability into the purchased items. All incoming raw material is checked as per standard test schedule.
