# RARA PHARMATECH & SURGICALS

## COMPANY OVERVIEW

- ✦ **RARA PHARMATECH & SURGICALS** was established by Mr. Sagar Ranpura from Engineering & Management Sector who understood the need of in Pharma Equipment, Animal Housing Equipment, Laboratory Furniture, Hospitality Furniture especially in tailor made stainless steel fabrication in India.
- ✦ **RARA PHARMATECH & SURGICAL** has made lasting impression in the Industry through its sheer application of Manufacturing abilities and Innovative Ideas. Through its strong commitment to total customer satisfaction and exceptional quality **RARA PHARMATECH & SURGICAL** has reached distinctive heights in Leisure, Hospitality & Catering Industry in India.

## OUR MISSION

- ✦ To be a leading and trusted Manufacturing Company for Pharmaceuticals Machinery, Animal Hosing Equipment, Hospitality Furniture, and Industry offering customized & value based solutions through Would lass Technology. Project Management & EPC Services.

|             |                               |
|-------------|-------------------------------|
| Type        | Ribbon Type Blender           |
| General Use | Commercial Furniture          |
| Material    | Stainsteel                    |
| Metals Type | Steel                         |
| Feature     | Eco-Friendly Water Resistance |

## RIBBON BLENDER

- ✦ Paste Kettle Is Used For Paste / Binder Preparation For RMG Process.  
Top drive with Standard make Gear box. Main drive with VFD for fine control f Impeller speed.  
Discharge via Tilting. With inbuilt heating element Jacket.

## PASTE KETTLE

- ✦ The Octagonal blender machine manufactured by us at **RARA PHARMATECH** is entirely suitable for the mixing of granular products. The machine is also offer great flexibility of operations as well as easy cleaning and maintenance. Simple structure with GMP compliant design further enhances functionality of the machine.

## AFTER SALES SERVICE

- Great after sales services is always top priority for our customers. we had always stayed ahead of other by understanding clients need & providing excellent services **RARA PHARMATECH & SURGICALS** is more likely recommended by our customers to others. We always take proud of that.

## WHERE DO WE SERVE?

- Our company is proud to offer the most exceptional quality standards of Pharmaceuticals Companies, Pharma Research Companies, Hospital, Laboratory.
- We also offering ANNUAL MAINTENANCE CONTRACT with Ultimate time line most economic prices.

Give call : **+91 9825164105**

## UTILITY PENDENT

- This Pendant is designed to facilitate various **Utilities/Services (WFI / DM water piping loops, electrical cabling, steam / chilled water lines, nitrogen / LPG lines, process media lines, compressed air line)** to be brought into the sterile area or working area in a close nesting manner, so as to provide easy access to services. It designed to take mainly Water, Steam, electrical cable and gases housed in four segments of the Pendant, isolated and independent of each other.

**RARA  
PHARMATECH  
& SURGICALS**

## FILLING VESSELS

◆ Pressure & Filling Vessels are used in **STERILE FILTRATION EQUIPMENT ASSEMBLY**. These pressure vessels are closed container, which have been designed well to hold gases or liquids at a different pressure. **(THE VESSELS ARE AUTOCLAVABLE & AIR TIGHT LID)**.

◆ We are trusted name in manufacturing Pressure & Filling Vessels, which are made up of SS 316, 316 L . We are providing complete customization as per the specification of the client. We offer these at reasonable rates and are easily available. **INTERNAL & EXTERNAL 240 GRADE MIRROR FINISH** Available from 1 to 200 liters .(with trolley)

◆ Powder Coated Stainless Steel **Pressure Vessels**, Certification : CE Certified, ISO 9001:2008

Certification CE Certified, ISO 9001:2008

Feature Anti Corrosive, Durable, High Quality, Shiny Look, Stable Performance

Condition New

Surface Finishing Powder Coated

Warranty 1year

Supply Type Exporter, Supplier

◆ Ointment Manufacturing Plant is designed to handle processes right from transferring of raw material to the delivery of finished products. Coming with a digital metering pump fitted in the hopper of filling machine, this plant the is used for the production of lotion and is so designed that it saves on valuable batch processing time.

- ◆ Unique Features
- ◆ Provides functioning that is untouched by hand.
- ◆ Homogenizer functioning as a transfer pump for the efficient discharge of the finishing product.
- ◆ Provides for perfect particle as well as droplet size control
- ◆ Hygienic finish construction to ensure contamination free working environment.

## OINTMENT PROCESSING PLANT

**RARA PHARMATECH & SURGICALS**

◆ **Rara Pharma Tech** has well experience in Commissioning and Validation, Design and Manufacture, Supply, Installation, of Purified / WFI Storage Tank and pipeline /Distribution System. Our design for the High quality Storage tank with and Piping network of Pharma / biotech injectable water ensures High Purity Water. WFI Storage Tank or Water for injection storage tank is required to be stored in a storage tank for its use in CIP (Clean-in-place cycle). The tank is pre-rinsed with WFI to wet its interior surface and remove all the residues. The Purified WFI Water Storage Tank is also used for non-chemical pressure test of the CIP flow path.

### WFI STORAGE TANK

### PURIFIED WATER STORAGE TANK

|                  |                                     |

| Type                | Other                 |
| Material            | Steel                 |
| Shape               | Round                 |
| Color               | Grey                  |
| Application         | Industrial,Laboratory |
| Equipment Materials | Stainless Steel       |
| Product Type        | Sip System            |

◆ **SIP systems** are designed for automatic cleaning and disinfection without any major disassembly or assembly work. Widely used in the food, dairy, beverage, biotechnology, and pharmaceutical industries, these clean-in-place systems ensure a hygienic and aseptic environment for different processes

|                     |                       |
|---------------------|-----------------------|
| Type                | CIP System            |
| Material            | Steel                 |
| Product Type        | CIP System            |
| Color               | Grey                  |
| Application         | Industrial,Laboratory |
| Equipment Materials | Stainless Steel       |

- ◆ 1 insulated 300L tank for preparing the cleaning
- ◆ Tank AISI 316L (1.4404)
- ◆ Constant level in the tank using a pressure switch and a control panel display.
- ◆ Stainless steel electric panel.

## PACKING CONVEYORS

- ◆ **Packing Belt Conveyor** are built to fit your production needs. They are available in a wide variety of lengths, widths, and construction materials and types. Both straight and curved configurations (L, S, and U-shapes) are available to help you maximize your production proficiency and fit your space requirements. The modular design allows you to add complete conveyors or extensions to your existing production line. Whatever your packaging environment may be, we will manufacture the right conveyor to suit your needs.

- ◆ Available from 100 Ltrs. to 20000 Ltrs. capacity.
- ◆ MOC shall be MS / SS 304 / SS 316 as per clients' requirement.
- ◆ Available in different options of top & bottom ends like flat, dished, conical
- ◆ Available in plani as well as steam / hot water jacketed.
- ◆ Jacketed vessels available in different jacket option i.e simple jacket, limpet jacket, dimpled plate jacket.
- ◆ HOT , COLD or HOT & COLD ( dual ) insulation can be provided as per clients' requirement.

MIXING TANK AND VESSELS

|             |  |
|-------------|--|
| Type        | Horizontal   |
| Material    | Stainless Steel  |
| Shape       | Round  |
| Color       | Grey   |
| Capacity    | 100-1000 ltr   |
| Supply Type | Manufacturer, Exporter, Supplier, Distributor, Importer. |

- ◆ Longer service life
- ◆ Excellent performance
- ◆ Sturdy construction
- ◆ Resistance against corrosion
