

A name to reckon with, when it comes to **Technology, Precision, Performance, Durability, Service & Standard** A fairly new entrant in the industry, but a fore-runner, leaving the competition far behind, with its total commitment for Quality, Economy & Performance. With a humble start in 1993, today we have a client list to boast about. We have not only covered Gujarat as our market but had gone length & breadth of India. Not to mention that we had crossed the boundaries & have foreign clients in our list too.

Till date we have successfully delivered around 700 machines. We are because we care, we are not bound by technology. We use it innovatively to fulfill your requirements & to get you desired results. The standard specifications of our machines are provided for your reference, but we can modify them for you.

A company with the sole motive of providing, excellence in performance at the most economical price & to serve you better . . . always.
