

# Two Way Water Tap With Wall Flange

Product Brochure

## Product Overview

The Two Way Water Tap With Wall Flange is a modern and efficient solution for bathroom fittings. Designed in a sleek round shape, it features a glossy finish that enhances the overall aesthetic of your space. Built from durable PVC material, this tap ensures long-lasting performance and reliability. Its convenient two-way functionality provides flexibility in managing water flow. With a wall-mounted connection, it saves space while seamlessly blending into bathroom decor. The stylish white and black color combination adds a touch of elegance and makes it suitable for both residential and commercial bathrooms.
