Company Profile

Rapid Hydraulic System is one of the leading firm that is engaged in designing, manufacturing & Exporting as Hydraulic System to meet the desired application demands at client end.

Rapid Hydraulic System is dealing in an extensive hydraulic system that have wide industrial application area.

Like

- Metal Forming Process
- Forging Industries
- Plastic Industries
- Precise & Accurate Machineries
- Brick & Ceramic Industries
- CRSC Turning Centre line
- Heavy duty Hydraulic Presses
- Earth Moving Industries

What is Hydraulic System ?

Hydraulic System is an proper arrangement of interconnected components which controls Hydraulic Energy and flow to meet desired functionality at client side.

Benefits

Clean & safe operation
Cost Efficient
Modular assembly for compactness
High quality & Reliability
Eye at operation
Longer service life

Specifications

- Nominal Pressure - up to 350 bar
- Max. Stroke length - up to 2000 mm
- Bore - up to 600 mm
- Rod - up to 400 mm
- Nominal Power up to 100 kw
- Oil Reservoir - up to 5000 lit
- Nominal Pressure - up to 700 bar
- Max Flow - up to 600 lpm
- Controls - Manual (inches)
- PLC & Servo System
- Integrated with Electronics sensors for feedback

Hydraulic Cylinder Solution for All Applications
Our Industrial Hydraulic Cylinders are built to work in the highest conditions

We have Hydraulic Cylinder for safe, Reliable & Smooth working, This gives you smaller & Cost optimized and intelligent components.
