About Us

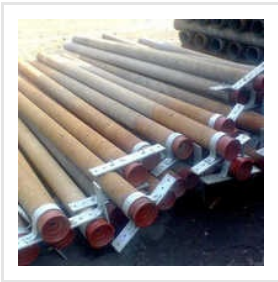

Veraizen Earthing introduces itself as one of the largest manufacturers of copper and GI products. Our portfolio comprises Solid Copper Earth Rods, Earth Pit Cover, DC Tape Clip, Copper Bonded Lighting Arrester, GI Earthing Strip, GI Earth Electrodes, Copper Conductor Tapes, and many other products. Each of our product is offered after getting tested in government recognised CPRI & NABL labs and ensuring RoHs compliant. We also deal with a range of Lightning Protection System and Aviation Obstruction Lights of various models and sizes. These are developed by our trained experts from supreme quality raw material that are purchased by us from the reliable vendors.

All our earthing and lighting products are as per the international norms and have compliance with the ISO 9001:2015 standards. These are carefully developed under the guidance of our quality controllers. Our products are trusted in the market for their high conductivity, excellent efficiency, and low maintenance.
