About Us

Rollway Engg. Industry is known in the market as a leading manufacturer and supplier of heavy-duty industrial machines. Our offered range includes Automatic Metal Coil Slitting Line Machine, Automatic Steel Coil Slitting Line Machine, Carbon Steel Tube Mill, High Speed Cut Length Machine, EOT Crane, and more. High durability, robust construction, and high efficacy are some of the key features of our products, which have helped us maintain a prominent position for ourselves in the market. Our offered range of items requires little to no maintenance to run and has a long service life. We do our best to make sure that the prices of our offerings are as low as possible, making us stand apart from our competitors. The timely delivery of all consignments is ensured by our strong logistics and delivery network team.

Our infrastructure facility is divided into many departments to provide seamless and trouble-free business operations. The entire facility covers a large area, allowing for smooth business operations by offering adequate space to each department. The manufacturing factory is outfitted with cutting-edge machines that handle both qualitative and quantitative needs with remarkable efficiency. The maintenance department oversees machine overhauls and recommends replenishment if certain parts or machines require it. Our many departments that handle various company tasks include production, research & development, quality control, packaging, warehousing, and many more.
