The logo for MAXWIN, featuring a stylized 'M' made of three blue slanted bars followed by the word 'MAXWIN' in a bold, blue, sans-serif font.

# ABOUT US

Earlier in 1994 we have started our organization as manufacturing of NRV Valve, CI Ball Valve, Brass Ball Valve, Brass Ball Valve, PP Ball Valve and many other products. We have created our brand all over the nation. Our products are widely used in chemical & Process industries, Refineries, Petrochemicals & Fertilizer Plants, Pharmaceuticals, Oil Exploration, Food & Beverage industries, Effluent industries, Effluent Treatment & Sewerage Plants, Water Treatment, Cooling water & Water supply plants, etc. To retain the quality standard of our products, we make these by using grade raw material that are obtained from coveted vendors of the market. Moreover, we precisely quality tests each products with the aid of high-tech testing machinery and tools to ensure their superior quality, before dispatch.

Now we have diversified our business towards PVC Pipe and Fittings. In that we have complete range of UPVC Pipe and Fittings and CPVC Pipe and Fittings. We are recognized for our consistent quality standards, so we manufacture Pipes and Fittings using the superior quality material with the aid of modern technology in tune with the quality norms.

We're building the world's most complete inventory of pipe and fittings. We aim to deliver an unprecedented selection of plumbing products with the best service and supply chain in the world. To reach our goals, we are building the world's premiere team of plumbing product experts and providing the opportunity and environment for our team to succeed both personally and professionally. These are our vision and mission statements:

## Mission

Leadership in the plumbing industries.

## Vision

We will build an organization that allows motivated people to succeed professionally and financially while encouraging unlimited personal growth.
