# About Us

With an objective to provide high quality and competitively priced products through our skilled engineering practices, we, Leelam Industries, have carved a niche for ourselves in the market. We are a leading Manufacturer, Exporter and Supplier of Watering Vacuum Pumps, Vacuum Booster System, Two Stage Watering Vacuum Pump, Oil Sealed, Rotary, High Vacuum Pump, Vacuum Cum Pressure Pumps, Mechanical Vacuum Boosters & Vacuum Systems, Twin Lobe roots Blower, etc. All the products are manufactured and developed after extensive research work that is carried out at our modern research and development wing. The wing is involved in improving the quality of our products in order to offer maximum satisfaction to our customers.

Our products can also be customized as per the specifications, detailed by our customers. Our robust manufacturing unit help us in manufacturing products as per the specific requirements of the industry. Focussing on Class, Quality and Commitment, we have been able to register a remarkable success in the industry..

Leelam Industries is known as one of the leading Exporters, Manufacturers and Suppliers assuring guaranteed quality. We have been offering precision range of Roots Blower, Industrial Vacuum Pump, Watering Vacuum Pumps, Rotary Air Compressor, Vacuum Pump System, Oil Seal Vacuum Pump, Fluid Coupling, Twin Lobe Rotary Compressors, Mechanical Vacuum Boosters & Vacuum Systems, and more. All the products are designed & fabricated while keeping in mind varied customer specifications and current market demands. We are equipped with latest technologies and state of the art machinery that enable us in bringing forth superior quality products that are defect free. The offered array is high on precision, efficiency, and sturdiness.

## Quality Assurance

We boast of a modern quality testing facilities that is equipped with some of the best machines and tools that help us in testing our Pumps and Vacuum Systems, Twin Lobe Compressor, Twin Lobe Rotary Compressors on various national and international standards. We have also appointed a team of experienced quality controllers, who put in their sincere efforts in monitoring the entire manufacturing process. Further, they also ensure that the entire assortment is tested upon different quality parameters such as durability, reliability, functionality, corrosion & abrasion resistance, and power consumption. By maintaining strict quality policy in our organization, we have been able to win the trust of our esteemed clients.

# Our Products

**D Watering Vacuum Pump**

**Vacuum Pump**

**Oil Seal High Vacuum Pump**

**Double Stage Vacuum Pump**

**V- Belt Driven Vacuum Pump**

**Direct Drive Vacuum Pump**

**Liquid Ring Vacuum Pump**

**Two Stage Watering Vacuum Pump**

**High Vacuum Pumps**

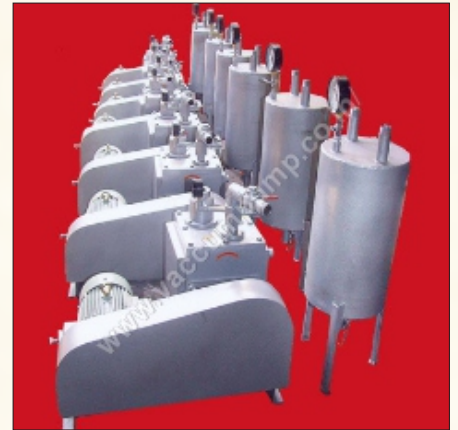

**Pressure Vacuum System**

**Centralized Vacuum System**

**Heavy Duty Vacuum System**

**Duplex Vacuum System**

**High Vacuum System**

**Standard Vacuum System**

**Vacuum System**

**Industrial Vacuum Pump System**

**Single Stage Mechanical Vacuum Booster**
