

**S**afeage Safes are of fully welded double wall multibend construction making the body an integrated unit. With a commitment to providing enhanced security beyond prescribed norms the thickness of the outer and inner plate is 8mm, more than the BIS prescribed thickness of 7mm. The special barrier material (different formulations for each class) sandwiched between the outer and inner walls define the category of safe as

**Class 'C' - TL 30D, TL 10 X 5, FR30, BIS Licensed IS 550** (evaluation done at ARAI)

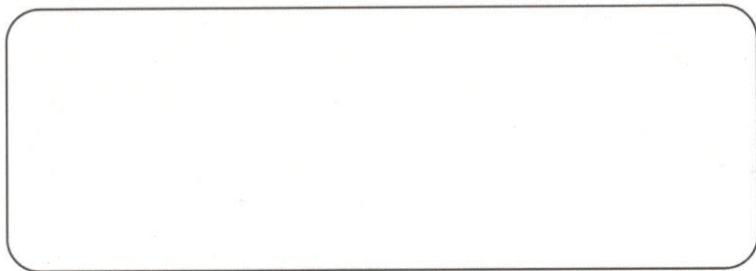

**Class 'BB' - TRTL 15 X 6 BIS Licensed IS 550** (evaluation done at GTH)

**Class 'A' - TRTL 30 X 6 BIS Licensed IS 550** (evaluation done at EMTAC)
