About Us

With a perfect combination of a highly motivated team and continued investment in technology, we, Safeage Security Products Pvt. Ltd., offer highest quality security products for your residential and commercial buildings. Founded in 2005, we are one of the prominent manufacturers and suppliers of a series of reliable fire resistant cabinets, burglar resistant safes, fire resistant safes, Industrial Safes, security doors, safes, data cabinets compactors and other related products.

Designed and produced by following stringent quality control measures, our products are capable of rendering years of services to our esteemed clients. Our process is accredited with the ISO 9001:2000 certification, and we ensure that our products meet all the requisite statutory requirements. The company has given a convincing performance in such a short period of time and has emerged as the most preferred supplier in its discipline.

We are continual in improvement of products quality and services through research and development is an integral part of our working system. Managed by a group of highly experienced personnel, we always take a close insight into the emerging requirements of our clients and manufacture the fire resistant safes and allied products accordingly. In a short span of time, we have earned a huge network of clients, spread throughout the globe.
