About Us

Vijay Enterprises stands as a leading manufacturer of chemicals and enzymes, catering to diverse applications in the food, textile, leather, detergent, and cleaning care industries. The company was originally established as Vijay Enterprises in Delhi in 1981 by Mr. Vijay Kumar Jain, a first-generation entrepreneur with a background in Chemical Engineering from BITS Pilani. The journey began with the production of food ingredients for the bakery industry, and over the years, Vijen Biotech has transformed into a trusted provider of high-quality products and services across India. As part of the group company, Vijay Enterprises continues to focus on manufacturing food-grade ingredients, specializing in selected salts of Phosphates, Pyrophosphates, Sulphates, and Sulphites of Calcium, Sodium, Potassium, and Ferric.

Vijay Enterprises stands is a key manufacturer of chemicals and enzymes, catering to diverse applications in the food, textile, leather, detergent, and cleaning care industries. In the realm of home care, our Bonzee range includes Washing Detergent Powder, Hand wash Gel, Floor Cleaner, Glass Cleaner, Kitchen Cleaner, Dish wash Gel, Toilet Cleaner, and All Purpose Cleaner. We manufacture cost-effective, efficient, and eco-friendly products suitable for both bulk consumers and compact packaging for home use. Continuous innovation and portfolio expansion remain at the core of our endeavors, reflecting our commitment to meeting the evolving needs of our customers.
