## About Us

We, Cosmos Impex India Private Limited, are a prestigious company in the domain of CNC Machines. Our work office is located in Vadodara, Gujarat from where we have been working as a manufacturer and supplier since our inception in 1987. Our product range includes Cosmos Mill Tap CNC Machines and CNC Machining Centre Machines. These are designed by using innovative technologies, which makes them ideal for meeting the stringent demands of various clients based in India. To ensure the durability and high performance of our machines, we combine our decades of hands-on experience with the top practices and the latest market advances during product design & fabrication. It also helps in ensuring high output and efficiency in machines we offer. We have a customer care center that fulfills our motto of serving customers completely. The customer executives make sure to understand the requirements and feedback of our clients so that they can be acted on to improve the business work procedures and ethics. With their support, we have acquired credibility in the market, nationwide.

In the domain of CNC Machines, we, Cosmos Impex India Private Limited, are a leading company. Located in Vadodara, Gujarat, we have been manufacturing and supplying machines since our inception in 1987. Cosmos Mill Tap CNC Machine and CNC Machining Centre Machine are major types of machines offered by us. These are made in our facility in Vadodara, where we use modern production technologies. The facility is managed by a team of experts, who fulfill all the requirements of the customers. Our team is guided by Mr. Kaoshtu, who is the Director of our company. With his guidance, we have developed a supply ability of 2 to 3 machines per month that are delivered in a time frame of 2 to 4 weeks.
