About Us

We, Robinson Refrigeration Pvt Ltd, are one the leading manufacturers of refrigeration equipment in the industry. Our wide range of superior quality products includes Industrial Plate Freezer. Because of the exceptional quality, design, durability, and affordability of our products, we have been able to establish ourselves as a leading and reliable supplier in the industry.

Since our inception in the year 2020, we are committed to delivering an excellent range of products to our clients at the best rates. To maintain this, we produce our products using the finest quality raw materials and following industrial quality standards. Our quality control team oversees the entire process and conducts various quality checks at different stages of products to ensure top-notch quality. They also ensure our products get packed using the best grade packaging materials before delivery of our products.

Customer Satisfaction

When it comes to customer satisfaction, we consider ourselves the best in the industry. We are always ready to walk the extra mile to attain complete customer satisfaction. Our research and development team ensure our product line can meet every requirement of our clients with their deep market research. Also, we constantly work to improve our products and services. Thus, we take feedback from our clients to know the area for improvements in our products and services. Our team of experts ensure our product range gets delivered to our clients in a timely manner while maintaining top-notch quality.

Our Support

We are backed by a highly advanced infrastructure outfitted with the latest types of machinery and facilities. Our infrastructure allows us to produce our high-quality products in bulk quantities. We have divided our infrastructure into various operational units such as production, quality testing, R&D, warehousing and packaging, and so on. Our team of expert professionals manages the entire infrastructure. Furthermore, we ensure our infrastructure stays updated with the latest types of machinery and facilities. Our infrastructure eases the process of delivery of our product lines such as Industrial Plate Freezer, and more.
