About Us

Many of us often hear about sustainability, but do not really understand its meaning. From economic development to social development and environmental protection, these are three fundamental pillars of sustainability. Velaava Exports runs its business activities as an exporter and manufacturer by focusing all these parameters. As a result, we bring forth products that are beneficial for farmers, community and environment. Coir Pith Powder, Coir Pith, Bio Manure, Crop Protector, Grow Bag, Panchagavya Fertilizer, Coir Cup, Vermi Bed and Vermi Compost are some of many products that we offer our customers under the brand name, Landgrow.

Understanding the requirements of farmers, gardeners and individuals who love gardening, Velaava Exports began manufacturing and exporting agricultural products to yield quality crops without harming the environment. Coir Cup, Coir Pith, Vermi Compost, Bio Manure and Grow Bag are to name a few. We are a Coimbatore, Tamil Nadu, India based business having our presence across the National and International markets. Our widespread presence is because of the large network we have set up with the assistance of our diligent logistics personnel. Although it has been only a year since we commenced our business, yet we have gained immensely popularity globally because of the quality-marked products we offer at industrial leading prices.
