About Us

Founded in 2013, RAJGAURI Engineering Pvt. Ltd. is a Pune-based company that is the manufacturer, supplier, and exporter of an extensive array of material handling equipment. This array has belt conveyors, an electro hydraulic goods lift, a hydraulic scissor lift, a dock leveler, a pallet truck, etc. Every piece of equipment offered by us is highly efficient and has a long service life. Our products can either be customized or used independently. They are sturdy because they are fabricated using high-quality materials.

Working under the management and guidance of CEOs Kashinath and Ramesh Jadhav, we have established a solid reputation and position in this fiercely competitive sector. Their vast expertise and astute business sense have helped us at various points to achieve the greatest degree of client satisfaction. We offer excellent advice, personalized solutions, premium equipment, and prompt after-sales support. All of them are provided by our group of skilled and knowledgeable sales and service engineers.
