## About Us

Kiah Metallurgical India Exporters is a reliable industrial manufacturer and supplier of high performance industrial valves, designed to fulfill the rigorous demands of the modern industries. We have a broad selection of products such as Foot Valve, Trunnion Mounted Ball Valves, Metal Valves, Globe Valves, Steam Trap Valve, and more with a strong focus on quality, durability and technical precision. Our solutions will provide a high level of efficiency in flow control, operational safety, and long life in a variety of industrial applications.

Our operations are based on the principles of precision engineering and continuous improvement. Our manufacturing standards are rigorous and we use high grade raw materials to make sure that the products are reliable to work at different levels of pressure and temperature. The valves are designed and tested to provide consistent operation and this is the reason why our offerings are applicable in oil and gas, petrochemicals, water treatment and power generation industry. The emphasis on technical perfection enables us to fulfill both conventional and individual requirements equally effectively.
