About Us

Founded in 2003 and headquartered in Faridabad, Haryana, Alliedway India is a trusted manufacturer and supplier of advanced Medical Disposable Syringe Production Plants. We specialize in providing complete solutions for Medical Disposable Syringe Manufacturing. With over two decades of industrial experience, we combine deep expertise with cutting-edge engineering to deliver reliable and efficient equipment tailored to meet global standards. We offer an integrated range of machinery designed to support the full syringe production cycle from molding and assembling to final packaging. Each machine is engineered for precision, durability, and ease of use, ensuring maximum productivity with minimal downtime. Whether you're setting up a new manufacturing unit or upgrading an existing one, we provide both standalone systems and complete plant solutions that align with your specific production goals.

We believe in building long-term relationships based on trust and satisfaction. Our approach is consultative, transparent, and responsive - helping clients make informed decisions throughout their project lifecycle. Over the years, we have built a solid reputation not just across India, but also among international buyers seeking dependable syringe manufacturing technology. From timely delivery to after-sales support, we ensure a seamless experience every step of the way. Quality is not just a goal - it is a guarantee. Every component and machine undergoes rigorous testing and quality checks before delivery. Our facilities follow stringent manufacturing standards, ensuring consistent output and extended machine life. With scalable production capacities and customizable configurations, we serve startups and established manufacturers alike with equal commitment and precision.
