## About Us

Aswani Industries Private Limited is a professionally run manufacturer and supplier of advanced construction material, which is determined to enhance the Indian infrastructure environment. Since the company was founded with the mission of providing building solutions that are innovative, performance-oriented, the company has always aimed at the quality, durability, and sustainability. Our product lines consist of Fly Ash Blocks, Ascofix GPM, Ascofix BJM-TBM, Ready Mix Mortar, Ascolite Gypbond and others high-performance construction products to comply with the building standards of today.

Our Pan-India presence, 500+ distributors, 4,000+ dealers, and involvement in more than 3700 projects have made us a reliable construction material partner. Supported by a competent staff of 600+ employees and more than 100 innovative products, we never cease to improve manufacturing procedures to suit the changing industry demands. Aswani Industries is a company that manages to incorporate the use of technology as well as research in addition to ensuring that there is sustainability in order to produce products that improve structural integrity and construction effectiveness under the leadership of a visionary leader and the belief in operational excellence. We intend to deliver value based solutions that can enable the builders, contractors and developers to produce better outcomes in residential, commercial and industrial works.
