About Us

Ajit Electricals is a trusted brand that has established itself as a fine trader and supplier of top-notch electrical appliances. Offering an unmatched blend of innovation, durability, and performance, the company is engaged in distributing a wide variety of electrical products aimed at fulfilling residential as well as industrial needs. From the gentle push of an ordinary ceiling fan and the high efficiency of a BLDC fan, through the strong airflow of an industrial exhaust fan and the elegance of a decorative LED chandelier, every product is chosen to enhance comfort and design.

Backed by the credentials of energy efficiency and modern design, Ajit Electricals has developed along with the requirements of the market with a focus on quality and performance for the end-user. It now offers intelligent cooling solutions in the form of split air conditioner and tower air conditioner featuring strong cooling with slim designs, and everyday kitchen requirements like electric sandwich maker and electric air fryer designed for convenience and health-friendly cooking. With a tradition of whisper-silent use, perpetual airflow, quick heating, and elegant light, every product is a reflection of the company's quest to blend purpose with beauty. From LED lamps for gentle, energy-efficient lighting to LED COB lights for targeted use, Ajit Electricals believes in creating products that not just fulfill a function but enrich living to become even more gorgeous.
