

Sri Kalyan Export Private Limited

SA - 8000 & Sedex Certified Company
Woven Fabric Manufacturer & Home Textile Exporter

Sustainable
Ethical & Empowerment

● ABOUT US

Sri Kalyan Export was established in the year 1978 in South India and entered into Woven Fabrics, Home Textiles and Woven Garments industry with the latest technology weaving machines imported from ITALY for superior quality fabrics production.

The Management team achieved merits of high profile in the international market by its commitment for absolute quality in every transaction, time bound delivery, irrespective of the volumes, lasting impressions in terms of work ethics, affordable yet competitive pricing & stunning display of world class designs.

Sri Kalyan Export Private Limited (Govt. Recognized Star Export House) was started in 2001. As a manufacturing exporter of Home Textiles and Woven Fabrics we successfully developed customers in various European countries, United States and Australia. Over a period of three decades, our export business has grown multi fold and got us a Premium Membership in Handloom Export Promotion Council (HEPC) Ministry of Textiles, Government of India.

VISION

We aim to be the biggest player in the organic cotton textile sector, by being creative & innovative, by ensuring a continuous improvement of quality in all areas of our business.

MISSION

Our mission is to create an enterprise that can provide suitable conditions for an essential development of our environment, society and individuals.

IMPACT

We like to have our business achieve 3 dimensional impact, social, ecological & economical in society for environment and for people it employs directly & in-directly.

RESPONSIBILITY

Ethical, Environment & Social Responsibility is our core value upon which we have built processes through the entire supply chain.

● QUALITY ASSURANCE

We endeavour to delight our esteemed customers by designing, manufacturing and supplying quality Woven Fabrics, Home Furnishing Fabrics and made ups conforming to customer requirements and adhering social and cleaner production practices. This is achieved by adopting latest trends in the industry, using effective communication methods, providing regular training to our workforce and continual improvement in quality management systems.

ISO 9001 : 2008 : Certified quality management system which ensures manufacturing and supply of quality Home Textiles and made-ups at right time.

Oeko-Tex Standard 100 : We have achieved Oeko-Tex Standard 100 certification for adopting and using ecological production materials, processing as per Oeko-Tex Standard for producing Woven Fabrics and Home Textiles and made-ups.

Global Organic Textile Standards (GOTS) : We are one of the leading GOTS certified organic cotton Home Textiles and made-ups & Woven Fabrics manufacturer and exporter in South India. Which ensures 100% organic production methods followed from cultivation of cotton to consignment of goods.

Organic Exchange OCS 100 & OCS Blended : We are one of the leading OCS 100 & OCS Blended certified organic Home Textiles and made-ups & Woven fabric manufacturer in South India. By OE Blended certification we also able to supply certified organic blended products in fabric compositions like Cotton/Linen, Cotton/Bamboo, Cotton/Viscose, Cotton Elastane, etc.,

Textile Council Membership - Ministry of Textile, Government of India : We are one of the premium membership holders in following prestigious textile committee which is managed by Ministry of Textile, Government of India.

We are one of the Leading GOTS organic certified manufacturer & exporter of organic cotton woven fabrics, baby care & home textile products.

We are into organic cotton fabric manufacturing for the past 10 years as the buyers and people started knowing the benefits of organic cotton and its ethical impact on farmers, environment and the society.

So, we immediately adapted organic cotton into our manufacturing from greige, printed, fabric dyed and yarn dyed fabrics. And got the world's most renowned organic standard certifications for organic cotton, GOTS - Global Organic Textile Standard and Textile Exchange's, OCS - Organic Content Standard.

Organic Cotton GOTS Certified Manufacturer

Organic Pure Indian Cotton

Organic Cotton Facts

Cotton uses more chemicals per unit area than any other crop, accounts in total for 16% of the world's pesticides, uses 20,000 litres of water per kilogram of cotton yield and ruins the lives of the farmers trapped in cotton poverty. There are lot more reasons to move away conventional cotton to organic cotton.

Organic cotton clothing looks great, feels great and has some great environmental benefits, when it's done right.

Fair Trade Organic Cotton

We are also into process and supply of 100% Fair Trade organic cotton fabrics, body textiles, gags and home textiles items. We work with organic cotton farmers producers groups who typically grow organic cotton with an aim to provide fair wages, technical knowledge, financial support, till marketing their produce.., which ensures farming a sustainable and profitable occupation for farmers and their family.

Fair Trade Certified Company

We are proud to be certified by Fair Trade International as Fair Trade Organization by Flo Cert a global certification and verification body. Our aim is to follow fair trading practices in all areas of our supply chain from farmers to fashion buyers. Which is duly supported by Fair Trade certification.

Oeko-Tex Standard 100 Certified Manufacturer & Exporter

Product Class I

Sri Kalyan Export Private Limited has achieved Oeko-Tex Standard 100 Product class I for adopting and using ecological production materials, processing as per Oeko-Tex standard for producing fabrics which can be used for Baby Care, Bedding & Garments, Home Textiles, Bags, etc., Oeko-Tex testing for harmful substances always focus on the actual use of the textile. The more intensive the skin contact of a product, the stricter the human ecological requirements to be met.

Product Class I

Textile items for babies and toddlers up to 3 years (clothing, toys, bed linens, terry cloth items, etc.,) which is the highest standard in Oeko-Tex.

SA - 8000 : 2008 Certified Company (Social Accountability International Standard)

SA - 8000 is the first Social & Ethical Standard for corporate. And we are proud to be certified and assured that Sri Kalyan Export Private Limited is operating. As per procedures and standards set by SA - 8000 which ensures workers safety, sanitation, ventilation, fair wages, no child labour, fire safety standards, good water facility, CCTV surveillance, good working conditions are met in factory and office.

The social working standards are maintained as per rules and regulations of Indian Labour Law and International Labour Organization (ILO) & Social Accountability Accreditation Services. And we are also engaged in various social activities in creating awareness about tree planting, rain water harvesting, organic farming, child labour, fair trade practices, etc., So as social corporate company we ensure quality products and quality work life & social life is met as per buyer requirements.

Empowerment

Textile industry plays an important role in women empowerment in india. And at Sri Kalyan Export most of our floor works, checking, packing, etc., Is done by women workers and we provide sanitation, safety, convenient work timing etc., for women workers to balance their work and home life. And the fair wages paid to them helps to maintain quality life and to save money for their future, which makes them economically independent.

How we create Social, Ecological and Economical Impact

As an ethical textile business organization we always want to be sure our products are made according to Socially, Economically and Ecologically responsible business practices.

Social Impact

Most of our production related works are done by women workers about 70% we are committed to industry leading working conditions in terms of safety, healthy and fair labour practices. We promote fair and living wages. We conduct health camps, educational awareness drives and initiatives for community development beyond livelihood opportunities. We work with NGO's Social & Green Organizations for the promotion of awareness and implementations.

Ecological Impact

The Cotton & Cotton yarn source by Sri Kalyan Export is organic and ensuring no damage to the environment at the stage of farming and sourcing fo these crops. No pesticides are used in the farming of our organic cotton. Our dyeing, printing and finishing process is in standard as per approved by GOTS authority and it ensures non-toxic, heavy metal free, skin friendly, environment friendly etc., We are providing free saplings to the people who are interested in growing trees in private and public lands. The only condition is to take care and maintain plants till it become self sustainable. This is our one of the green initiative to maintain green environment and good ecological / climatic conditions.

Economical Impact

We are on of the fastest developing company with an aim to be leader in organic textiles, fair trade, socially & environmentally responsible ensuring sustainability & ethical values. Which is being ensured with our GOTS, Fair Trade, SA-8000 and Oeko-Tex certifications. We handle a diverse range of textiles products which required high labour force.

We provide interest free small loans to our workers in order to save them from money lenders who charge high interest rates.

Certified for Quality & Environment

ISO 9001 : 2015 International Quality Management System.
ISO 14001 : 2015 Environment Management System.

As an Young and Energetic team we are Constantly updating our Ethical Business Practices / Sustainable Textile Solutions / Social and Environment Activities / Women Empowerment etc., which benefits our Society / Customers and the World for ensuring Clean / Green land for our coming generations

SUSTAINABLE FABRICS

Our collections are made from organic, renewable, biodegradable and regenerated fibre. Entirely committed to fair trade production, we design with longevity in mind.

ORGANIC COTTON

All our cotton is certified organic by the National Programme for Organic Production (NPOP). The versatility of organic cotton is the basis of our collections.

TENCEL

We use Lenzing tencel, a biodegradable fibre made using wood pulp from Forest Stewardship Council (FSC) certified forests. Our tencel is produced within a closed loop, which re-circulated all water used in manufacture.

ETHICALLY MADE

Sri Kalyan Export India Private Limited are certified by non - profit internationally recognised organisation. With independent audits and accreditation bodies, we support fair wages, no child labor, workers rights, gender equality & grower communities.

FAIR TRADE

All our cotton suppliers and manufactures are certified by Fair Trade Labeling Organisations International (FLO) in India. Fair trade empowers farmers to negotiate with buyers to secure better prices for their cotton. Every season, certified farmer groups receive a premium to be spent on community projects.

SAFE WORK PLACES

Our Home Textile & Fabric is certified with SA 8000 and Sedex (SMETA). The SA 8000 Standard encourages clothing manufacturers to develop, maintain, and apply socially acceptable practices in the workplace. SA 8000 organisation are audited by certifications bodies accredited by Social Accountability Accreditation Service (SAAS).

ETHICAL TREATMENT OF ANIMALS

Farmers commit to the highest grade of animal welfare, environmental care and social responsibility. This includes commitment to no mulesing and basic freedoms as described in the Animal Welfare Act 1999 and the Animal Welfare 2010.

ENVIRONMENTAL PRACTICES

As a Manufacturer, we are accountable for the entire lifetime of a garment. We are committed to designing beautiful ethical and sustainable collections, and will continue to find ways in which we can develop and innovate our clothing without costing the earth.

ORGANIC COTTON FARMING

Organic farming is achieved through companion planting, corporations and on-site green waste composting, which helps to preserve entire ecosystems. Crops are exclusively rain - fed and hand picked several time during the season. Our cotton is grown from non - genetically modified seeds and organically farmed without harmful chemicals.

ENVIRONMENTALLY FRIENDLY DYES & WASHES

Our organic cotton is processed using Global Organic Textile Standard (GOTS) approved inks and dyes, which are free from chlorine bleach, toxic heavy metals, formaldehyde and aromatic solvents. We use GOTS approved washed for our organic fabrics from light weight voile to heavy canvas.

All our fabrics from organic cotton, plant fibre fabrics, sustainable fabrics is processed and dyed with low impact, heavy metal free dyes to ensure skin friendly and environment friendly for the planet.

These processes ensure sustainable use and treatment of water.
