About Us

VKM Chemicals LLP is emerging as one of the prominent manufacturers and exporters of a wide assortment of chemicals. Our company was incorporated in 2021 in Chandausi, Uttar Pradesh, India. We commenced offering a premium range of Camphor Crystal, Mentha Oil, Menthol Crystal, Menthol Liquid and many other products in the national and international markets. This led the company to create a large network of customers around the world. We make sure that the products manufactured by us meet all international standards. Therefore, we emphasize stringent quality tests during procurement as well as the production process.

Our customers appreciate and value our products because of their exceptional quality and reasonable pricing. This motivates us to follow ethical policies in all our business operations. Our products are completely natural and contain no harmful chemicals. These are useful in treating serious illnesses and reducing the symptoms caused by various diseases. We are proud of our cutting-edge production facilities that help us complete bulk orders in no time. We intend to expand strategically by leveraging on our manufacturing capabilities, customer network and industry knowledge.
