About Us

Established in 1991, Brand- RAJNI, Rajni Refrigeration has been a trusted manufacturer of commercial refrigeration product systems, known for providing consistent quality and reliable performance. Our products are designed for long-term durability, helping your businesses operate without disruption. We use high-grade materials with the use of copper pipe and advanced technology, which ensures fast cooling, high efficiency and long machine life. With a strong network and sales in 22 states we have built a reliable presence across India, our products are useful to many industries like Ice candy machine, Dairy freezer's, Deep freezer's, Milk cooler's, Bottle cooler's, Water cooler's and Glycol Deep freezers like Kulfi maker, dairy industry, ice cream point, milk manufacturer, hotel business, social organizations and food businesses.

Rajni Refrigeration is a reputed company that was started back in 1991 at Jamjodhpur, Gujarat, India, as a manufacturer and supplier of higher-order refrigeration devices used for various commercial and industrial purposes. Our decades of business experience have gained us customer confidence through our ability to deliver quality and ethical business values and reliable service levels. Our product line consists of a deep freezer, a bottle cooler, a glycol deep freezer, a powerful milk cooler, and a stainless steel water cooler. Every offering is designed to provide effective cooling, robust performance, convenient usability, and extended working life. Innovation and quality control help us to respond to the changing market needs with confidence. We have a team of professionals who are committed to customer satisfaction by ensuring that their services are delivered on time and are responsive to the needs of the customers. High focus on sustainable building, eco-friendly operation, and sanitary finishing has assisted us to develop enduring bonds within the sectors. Rajni Refrigeration is still expanding with its credible solutions that are based on performance, value, and trust.
